BRAINERD, MINNESOTA, THURSDAY, FEBRUARY 27, 1913

Price Two Cents

THINKS HE CAN SUBDUE REBELS

Huerta Looks Confidently to Future of Mexico.

LOAN OF 200,000,000 PESOS

Minister of Finance Will Ask Congress to Authorize Bond Issue for Pacification and Rehabilitation of the Republic—New Ambassador to the United States Has Been Appointed.

Mexico City, Feb. 27.—Two hundred million pesos is the amount the minister of finance probably will ask congress to authorize the government to raise by means of bonds for the pacification and the rehabilitation of Mexico.

At the time of the fall of the Madero regime a bill for a bond issue of 100,000,000 pesos for the same purpose was introduced in congress.

Minister Ohreigan discussed the question with a committee of congress and the measure probably will be introduced. It is believed some part of this sum will be used for the payment of indemnities.

Emilio Rabaza, a member of the senate and regarded as the greatest authority in Mexico on international law, has been appointed ambassador to the United States. He was governor a few years ago of the state of Chihuahua, but his greatest claim to distinction is his work as an attorney and as the representative of the government at international scientific congresses. He was not allied with the Madero administration. He is fifty-six years old and speaks English fluently.

The government looks confidently to the future. It was announced officially that the rebel difficulties at Laredo and Matamoros had been arranged and that troops had been sent to Aguascalientes to install General Carlos Garcia Hidalgo as military governor.

Argumedo, one of Orozco's generals, has notified the government that he will place his men in camp at Soledad, in the state of San Luis Potosi, or any other place indicated, pending a conference to arrange details for mustering out or re-enlisting the regular men.

It is not expected that the Zapatista problem, especially in the state of Morelos, will be solved immediately, but several minor chiefs have announced their willingness to serve the government.

Government officials realized the probability of a difficult campaign in the South, but President Huerta, who commanded the federalists in the campaign which most nearly resulted in the ending of the Zapatista trouble and was checked only by Madero's benevolent interference, believes he knows the situation sufficiently well to end the trouble.

TO WITHHOLD RECOGNITION

That Question Will Be Up to Wilson Administration.

Washington, Feb. 27.—Practical recognition of the new provisional government of Mexico is not a matter requiring immediate attention of the secretary of state and it was made practically certain that that is another subject which will be left to the next administration.

In the opinion of state department officials the United States has no interest in Mexico that will suffer by withholding the full recognition and also all necessary business can be discharged under the existing working arrangement that Ambassador Wilson has set up. This amounts to the recognition of a de facto condition. It in no wise commits the United States government to an acknowledgment of the legality of the Huerta government and that question must be determined hereafter entirely upon the basis of performance.

EMILIO MADERO NOT KILLED

Governor Trevino Wires He Was Not Executed Near Monterrey.

Laredo, Tex., Feb. 27.—In response to a telegram of inquiry relative to the reported death of Emilio Madero, brother of the late president of Mexico, near Monterrey, General Geronimo Trevino, governor of the state of Nuevo Leon, sent the following message from Monterrey:

"There has been no execution of Emilio Madero, nor was he killed in this vicinity, nor is there any reason why harm should be done to the honorable person of such a man as Don Emilio Madero."

In the Eye of the Beholder. Jimmie was playing with the boy next door. Nurse went to get him, but he refused to come. So he was carried, screaming, away. The family and neighbors commented:

Sister—He's a contrary little rogue. Father—He's a stubborn little rascal. Neighbors—He's a little savage. Mother—How strong willed Jimmie is!—Woman's Home Companion.

John Q. Thompson Dies. Chicago, Feb. 27.—John Q. Thompson, aged sixty-three, first assistant attorney general of the United States, died here of uraemic poisoning. He had been in a critical condition since last Saturday, when he was suddenly stricken.

M'REYNOLDS MAY LAND POSITION

New York Lawyer Rumored for Attorney General.

HANDLED IMPORTANT CASES

Prospective Head of Department of Justice Prosecuted Government Suits Against the Tobacco Combine and Had Charge of the Litigation Against the Hard Coal Trust.

Washington, Feb. 27.—Chief interest in the cabinet situation in Washington centered about the attorney generalship and a report that James C. McReynolds of New York is foremost among those under consideration for the place by President Elect Wilson.

Coupled with Mr. McReynolds' name as a probability for this portfolio was that of Edgar H. Farrar of New Orleans, former president of the American Bar association.

Men high in Democratic councils declared that McReynolds and Farrar had been under consideration for some time, but that late developments seemed to point to the selection of McReynolds, who was assistant attorney general in 1903-07 and has long been specially retained by the United States in trust prosecutions.

Though a Democrat, Mr. Reynolds was engaged to prosecute the government's suits against the tobacco trust and had charge of that case from the beginning until the dissolution of the American Tobacco company.

He made a particular study of the tobacco trade and manufacturing conditions and when it came to the arrangements for the dissolution of the company he was the one who had the knowledge of the tobacco brands and the intricacies of the trust organization proved of great value. He also had charge of the prosecution of the government's suit against the hard coal trust and carried the case through the supreme court, which annulled the so called 65 per cent contracts.

Mr. McReynolds is a native of Kentucky, a graduate of the law department of the University of Virginia and practiced law for many years in Nashville, Tenn. He located in New York in 1907.

Other developments served to confirm the finality of the selections of Messrs. Bryan, McAdoo, Daniels and Burleson and to disclose various steps by which other names gradually have been eliminated from consideration.

PASSES GOOD ROADS BILL

House Makes Three Radical Alterations in Minnesota Laws.

St. Paul, Feb. 27.—The house, by a vote of 90 to 13, passed the R. C. Dunn good roads bill, a codification of all the good road laws, but amended so as not to be contrary to the Elwell law.

The Dunn bill makes three radical changes in present road laws. They are:

First—Increases of the state road tax from one-fourth of a mill to 1 mill. The result will be a fund of at least \$1,350,000 available each year for road improvement.

Second—Abolition of the system of "working-out" road taxes. Cash for taxes is demanded.

Third—Increase from \$150,000 to \$200,000 for use annually by good roads commission.

PASSES POSTOFFICE BILL

Carries Increase of \$3,000,000 Over House Measure.

Washington, Feb. 27.—The postoffice appropriation bill, carrying approximately \$283,000,000, an increase of nearly \$3,000,000 over the house bill, was passed by the senate. The largest single item in the bill is for the transportation of mails and mail routes, \$51,500,000 being authorized by the senate for this purpose.

The senate appropriated \$47,500,000 for the rural delivery service. The measure carries an increase of more than \$12,000,000 over the appropriations made last year, due to the establishment of the parcel post system.

Standard Oil Official Dead.

Palm Beach, Fla., Feb. 27.—James A. Moffett, vice president of the Standard Oil company of New Jersey, died here after a brief illness. He was sixty-two years old and is survived by a widow, two sons and a daughter.

STORMS PREVENT WARFARE

Winter Weather Halts Operations in the Balkans.

London, Feb. 27.—The operations of the five armies engaged in the Balkan war have been brought practically to a standstill by the wintry weather. Snow storms are frequent and the roads are in a deplorable state.

The daily official dispatches repeat the stereotyped statement, "nothing of importance has occurred."

HENRY P. FLETCHER.

Minister to Chile
Refuses to Resign.

OTHERS MAY FOLLOW DIPLOMAT'S EXAMPLE

American Minister to Chile Refuses to Resign.

Washington, Feb. 27.—Basing his position on the fact that he took the diplomatic civil service examination Henry P. Fletcher, the American minister to Chile, will not offer his resignation before the inauguration of President Wilson. This determination probably will form a basis for the test of a permanency of the civil service, as it applies to the diplomatic service.

Fletcher entered the diplomatic service as the result of an examination and worked up from a minor secretaryship to the post of charge d'affaires in Peking, China, where he came into prominence in connection with the Hukwang railway loan.

Because of the ability he showed while in Peking and his loyalty to the policy of the government Mr. Fletcher was appointed minister to Chile. Although Fletcher always has been a Republican he has made public his intention not to follow the recognized customs of offering his resignation before the inauguration of the new president.

A number of American ministers, including twelve in Latin-America alone, and one ambassador, Mr. Rockhill, at Constantinople, have risen from the lower grades of the service, in accordance with the system of examination and promotion created by executive order.

Many officials of this status, who can assert that civil service principles have governed their appointments, may follow Mr. Fletcher's example.

KILLS SCHOOL BOOK BILL

North Dakota House Refuses to Create State Commission.

Bismarck, N. D., Feb. 27.—After a heated debate in the house a bill creating a state text book commission and providing for uniformity of text books was recommended for indefinite postponement. Charges that agents of the American Book company have been going through the state offering bribes to educators and school boards failed to influence the house in favor of the bill.

When a bill relating to subjects to be taught in the public schools was considered Representative Hjelmstad declared that the pupils would be better off if they were to study less grammar, geography, etc., and learn "practical" things.

TRAPPED BY A DICTAPHON

Arson Suspects Discuss Plans When Put in Same Cell.

South Bend, Ind., Feb. 27.—A dictaphon has entered into the arson investigation here, it became known. Police officials of this city and Fort Wayne declare that Benjamin and David Rosenberg and Abraham Franklin hopelessly involved themselves while they occupied the same cell here Monday night.

The officials say the three men, who are under indictment charged with arson, freely discussed their plans of defense and various fires. The men are now in the jail at Fort Wayne charged with setting fire to a store.

HOUSE PASSES NAVAL BILL

Authorizes Construction of Only One Battleship.

Washington, Feb. 27.—After four days of debate, accompanied at times by scenes of disorder seldom witnessed at the Capitol, the house passed the naval appropriation bill, carrying approximately \$138,000,000, and authorizing the construction of one battleship, six torpedo boat destroyers and four submarines.

An amendment to provide for one battleship, instead of two as recommended by the committee, was carried by a vote of 174 to 156.

An amendment offered by Representative Calder of New York and adopted requires that the one ship shall be constructed in a government navy yard.

INTERVENTION IS STOUTLY OPPOSED

Foreign Relations Committee Discusses Move.

IS VERY DIFFICULT PROBLEM

Present Administration Passes Delicate Complication to Successive One. Madero Said to Be Unbalanced—Appointment of Huerta Not Thought End of Mexican Trouble.

By ARTHUR W. DUNN.

Washington, Feb. 27.—[Special.]—Prominent members of the foreign relations committee of the senate have been discussing the probable intervention in Mexican affairs, and they do not take kindly to the prospect. They say that intervention will not be a popular move for any administration. Yet it would be almost impossible, it was said, to prevent intervention in case an attack was made upon American citizens. The administration which would hesitate to send an army to Mexico in that case would be severely criticised, it was asserted.

Within less than two weeks of a change of administration the situation is anything but pleasant to contemplate. If intervention can be avoided until after Mr. Wilson becomes president it may be possible to still further postpone, if not prevent, such a move. No doubt that every influence Mr. Bryan can bring to bear will be against intervention. Without any intention of so doing the present administration passes on to its successor a very difficult foreign complication.

Former Diaz Adherents.

It is plain that most of the opposition to Madero was from the adherents of the old Diaz regime. This can be ascertained by talking with the friends of the old dictator, many of whom are now in Washington and some of whom are found in congress.

One of those prominent in public life asserts that Madero's mind is not right and that he would have been in no condition to rule the country even if he had not been ousted. The substitution of General Victoriano Huerta temporarily in his place, it is thought, may not have helped the situation much.

One on Mondell.

Congressman Mondell of Wyoming was trying to get an appropriation attached to a bill providing \$200,000 for the destruction of predatory wild animals on national reserves and game preserves. Congressman Roddenberry of Georgia, remembering Mondell's several days' attack upon the river and harbor bill, said:

"From the gentleman's statement it is evident there is nothing for the government to appropriate for in Wyoming except predatory wild animals, national forests, sheep, army posts and reservations, public buildings and the salaries of able statesmen."

As Mondell and his able Wyoming senators have secured something like \$25,000,000 for the things enumerated, the shot of Roddenberry created considerable amusement in the house.

Sims' Sympathy.

It was during the discussion of the anti-liquor bill that a number of members expressed their adherence to the general principles of liquor reform, but doubted the constitutionality or the rights of the government or something of that sort; anyway there was some reason they could not support it.

"I rise to express my sympathy," said Congressman Sims of Tennessee when he addressed the house, "for those great constitutional lawyers who wear the constitution as a hobble skirt and fall down every time they try to go forward and fall down every time they try to go to the right or left, who can only stand where they are until they shrivel up or turn to a pillar of salt, like Lot's wife."

Texas and Kentucky.

Sherley of Kentucky and Henry of Texas were having a little skirmish. "Since I heard the gentleman from Kentucky," said Henry, "I do not know that I ought to let my assertion stand, because I infer that Mr. Sherley is a great lawyer and will admit it himself upon the slightest provocation."

A Real Temperance Lecture.

Few speeches on the Kenyon liquor bill will be more quoted than that of Senator Webb of Tennessee, who is serving a short term from his state. He told how General Lee made the army a temperance organization and thereby strengthened it. He told about the boys he had known who had become great men, while those who had become liquor drinkers, though bright and intelligent, had fallen by the wayside.

"I have spent more than sixty years in a boarding school for boys," said this man, who did not look that old as he was speaking, and then he told about some of the men who had gone from his school. The brilliant Senator Carmack was one of his pupils.

The Way Champ Put It.

Lloyd of Missouri had control of the time on a proposition in the house, and Fitzgerald wanted time to ask Pujos of investigation fame a few questions. Lloyd yielded time to Pujos. "The gentleman from Louisiana," said Speaker Clark, "is recognized for ten minutes in order to give Mr. Fitzgerald an opportunity to catechize him."

Kerosene.

Kerosene is not so explosive as in flammable, but it should never be brought in contact with fire.

GEORGE B. MC'CLELLAN.

Appears Before Committee
Probing New York Police.

REFORM NEW YORK POLICE

Three Committees Join Forces for Sweeping Changes.

New York, Feb. 27.—Three committees, one appointed by the legislature, one by the board of aldermen and one by an organization of citizens, joined in a culminating effort to reform the New York police force. The result of their labors probably will be legislative bills providing for sweeping changes.

Mayor Gaynor was the principal witness before the executive committee and two of his predecessors, Mayors McClellan and Low, gave their views to the committee, of aldermen. At the same time the citizens' committee, appointed immediately after the murder of Herman Rosenthal, the gambler, laid before the legislative committee detailed recommendations.

The most radical reform suggested was the appointment of a new commission to be called "the board of social welfare," which should take from the present police force the power of regulating gambling, social vice and the liquor traffic.

THAW DECLINES TO GIVE ANY EVIDENCE

Committee Probing Efforts to Secure His Freedom.

Fishkill on Hudson, N. Y., Feb. 27.—Harry K. Thaw, slayer of Stanford White, refused to testify before Governor Sulzer's committee of inquiry which is investigating an alleged conspiracy to obtain Thaw's release from the Matteawan hospital. Thaw declared that he would answer questions only if allowed to testify "in the same place and under the same circumstances as other witnesses," and "without pretense of insanity." He said he had taken this position "on advice," but refused to say who had advised him.

The committee came here from Albany after hearing John Nicholson Anbut, a New York lawyer, testify that he had received \$25,000 fee from an agent of Thaw to obtain his release. Anbut also testified concerning his relations with Dr. John W. Russell, superintendent of the Matteawan hospital, denying the latter's accusation that he had offered the doctor a \$20,000 bribe to aid in obtaining Thaw's freedom and making the counter charge that Dr. Russell had said "he wouldn't do anything for Thaw unless he got money for it."

STATE OFFICIAL RESIGNS

South Dakotan Is Accused of Padding Vouchers.

Pierre, S. D., Feb. 27.—State Land Commissioner H. C. Brinker sent his resignation to the governor and with it refunded \$535.85, which he is charged with having obtained through his manipulation of automobile hire vouchers. About one hour later Mr. Brinker went to the office of Police Justice Slindee, where a warrant for his arrest was served on him by Sheriff Quinn.

He waived examination and was placed under \$5,000 bond for his appearance in circuit court at the May term to answer to the charge of obtaining money under false pretense. The bond was prepared and signed and he was released.

The accidental discovery of a voucher for a greater sum than was paid for service was discovered by a man who was looking up other matters. This was taken to Attorney General Johnson, who began an investigation.

UPHOLDS BRIBERY CHARGE

Committee Reports Tobacco Agent Was Rightly Accused.

Bismarck, N. D., Feb. 27.—The senate committee named to investigate charges against B. J. Ness, said to be an American Tobacco company agent, accused of attempting to bribe certain members of the house to vote against the anti-snuff bill, reported in effect that the circumstances had been found to be as represented by A. C. Divot, who preferred the charges.

BITTERLY FLAYS PRESIDENT TAFT

INSANE HUSBAND KILLS WIFE

Drags Woman From Bed and Jumps on Her Body.

Madison, Minn., Feb. 27.—Lars Falkum, sixty-five years old, a farmer in the town of Friendship, Yellow Medicine county, in a fit of insanity, dragged his wife, eighty years old, from bed and jumped on her body, crushing all her ribs. She died instantly. Falkum then started after his daughter, aged twenty, but she escaped by running to the home of a neighbor.

Falkum, who showed previous signs of insanity, had been watched closely. Falkum was suffering from cancer. He has been sent to the St. Peter insane hospital.

PLAN TO DISBAND FORCES

Russia and Austria Said to Contemplate Action on Frontier.

St. Petersburg, Feb. 27.—Demobilization of the Austrian and Russian forces has been decided on, according to information from a most reliable source, as a result of the recent exchange of letters between Emperor Francis Joseph and the Russian emperor. The extra units concentrated on the respective frontiers, it is said, will be withdrawn simultaneously in the near future and the reservists disbanded.

This action coincides with the preparations for the tercentenary celebration of the Romanoff dynasty, which it is desired to mark by peace in international relations and good will in internal politics. An amnesty decree on a large scale now is being prepared.

WILSON WON'T JOIN CLUB

Declines Invitation to Become Member of Chevy Chase.

Washington, Feb. 27.—President Elect Wilson has declined membership in the exclusive Chevy Chase club in Washington, to which former President Roosevelt, President Taft, practically every member of the diplomatic corps and most of the high officials of the government belong.

Some time ago the board of governors asked Mr. Wilson to become an honorary member, which would have given him the club privileges immediately, although it usually takes two years after a member is proposed before his application is approved. Mr. Wilson declined the invitation, stating that he expected to give all his time in Washington to public business.

HOUSE TO PROBE WICKERSHAM

Committee Orders Inquiry Into Halting of Importers' Trials.

Washington, Feb. 27.—Right on the heels of the dismissal by the department of justice in Texas of criminal indictments against Standard Oil officials, the house judiciary committee ordered an investigation of Attorney General Wickersham's action in halting criminal prosecutions of New York china importers who are alleged to have defrauded the government of millions in importing Limoges china-ware.

German Army Aviator Killed.

Melhausen, Germany, Feb. 27.—Sergeant Helfersneider, army aviator, was killed and Lieutenant Linke, his aid, was slightly hurt when their aeroplane fell to earth from a height of sixty feet.

GRAIN AND PROVISION PRICES

South St. Paul Live Stock.

South St. Paul, Feb. 27.—Cattle—Steers, \$8.25@8.75; cows and heifers, \$6.25@7.00; calves, \$8.25@9.00; feeders, \$4.50@7.25. Hogs—\$8.15@8.25. Sheep—Lambs, \$7.25@8.25; wethers, \$4.00@5.50; ewes, \$3.00@4.00.

Duluth Wheat and Flax.

Duluth, Feb. 27.—Wheat—To arrive and on track—No. 1 hard, \$8@8.50; No. 1 Northern, \$7@8.75; No. 2 Northern, \$3@8.50; May, \$9@8.90; July, 90¢. Flax—On track, \$1.30@1.35; to arrive, \$1.30; May, \$1.31; July, \$1.33.

Chicago Grain and Provisions.

Chicago, Feb. 27.—Wheat—May, 93¢@93.5¢; July, 91¢@91.5¢; Sept., 90¢. Corn—May, 53¢; July, 54¢; Sept., 55¢. Oats—May, 34¢; July, 34¢@35¢; Sept., 34¢. Pork—May, \$19.85; July, \$19.75@19.75. Butter—Creameries, 28¢@35¢. Eggs—16¢@17¢. Poultry—Turkeys, 21¢; chickens, 14¢@15¢; springs, 16¢.

Chicago Live Stock.

Chicago, Feb. 27.—Cattle—Beef, \$6.85@9.00; Texas steers, \$5.20@6.00; Western steers, \$6.20@7.75; stockers and feeders, \$6.15@8.10; cows and heifers, \$3.25@7.50; calves, \$7.00@10.50. Hogs—Light, \$8.25@8.50; mixed, \$8.25@8.50; heavy, \$8.10@8.50; rough, \$8.10@8.25; pigs, \$6.50@8.35. Sheep—Native, \$5.25@6.80; yearlings, \$6.80@8.00; lambs, \$7.50@8.65.

Minneapolis Grain.

Minneapolis, Feb. 27.—Wheat—May, 88¢; July, 90¢. Cash close on track: No. 1 hard, 88¢; No. 1 Northern, 87¢@88¢; to arrive, 87¢; No. 2 Northern, 85¢@86¢; No. 3 Northern, 83¢@86¢; No. 3 yellow corn, 44¢@44.5¢; No. 4 corn, 42¢@43.5¢; No. 3 white oats, 30¢@30.5¢; to arrive, 30¢; No. 3 oats, 28¢@29.5¢; barley, 42¢@55¢; flax, \$1.30; to arrive, \$1.30.

Senator Crawford Comments on Land Office Removal.

GAMBLE WINS HARD FIGHT

South Dakotan Secures an Executive Order Abolishing Land Offices at Chamberlain and Gregory and Establishing New One at Carter—Action Draws Caustic Comment From His Colleague.

Washington, Feb. 27.—The effort that Senator Gamble of South Dakota has been making to obtain the location of a new land office at Carter, S. D., met with success when President Taft signed an order which abolishes the two land offices at Chamberlain and Gregory in that state and establishes the new one at Carter.

The order also provides that part of the territory within the Chamberlain district, lying north of the White river and west of the Missouri, shall be attached to the land office at Pierre. Carter is to have jurisdiction over the rest of the public lands formerly included in the Chamberlain and Gregory offices.

The proposition has met with bitter opposition from Senator Crawford, who, on several occasions has issued public statements declaring that this move was a part of a conspiracy on the part of Senator Gamble, Representatives Martin and Burke and the Jackson brothers of South Dakota, in which they attempted to defeat the election of Dean Sterling to the senate. He charged they agreed to have the land offices moved to Carter to benefit the Jacksons for their alleged aid in the plan.

Senator Gamble and the representatives have denied Senator Crawford's charges. Secretary Fisher of the interior department recently decided against the proposed change, because the Northwestern railroad was not going to extend its line to that point in the near future.

President Taft Appealed To.

The president was appealed to and it was pointed out to him by the advocates of the change that most of the public lands in the Chamberlain and Gregory districts had been taken up and that Carter was much nearer to lands which are being opened to settlement.

When Senator Crawford learned that the president had agreed to the Carter location he issued another statement criticising the president and renewing his charges of conspiracy.

"I have known for several days that Senator Gamble and Representatives Martin and Burke and the Jacksons were moving heaven and earth to persuade the president to reverse the decision of Secretary Fisher," said Senator Crawford.

"Fisher decided the case on the merits. Taft has made a mere factional decision to save the faces of Gamble, Martin and Burke. The land office will be moved to a place out on the prairie, seventeen miles away from the railroad. No one will be fooled into thinking the order was made on its merits."

"It is monstrous that such a thing as this should occur. The people of South Dakota will say what they think of it in due time."

"It is made by the president just before going out of office because the parties interested knew that the new president would not consider the proposition for a moment. It is a fitting end of the Taft administration."

"I am proud of the fact that I did all in my power to prevent this indecent misuse of administrative power to help a few politicians to pay for political services."

EVICTED IN SNOW STORM

Mother Tries to Protect Four Children in an Alley.

Milwaukee, Feb. 27.—Mrs. Lucy Wood, thirty-two years old, is reported dying in the county hospital as the result of attempting to save her four children from being frozen to death after all were elected from their three-room home for failure to pay the rent.

Driven into a blinding snow storm the family sought refuge in an alley. For hours the mother stood with the children, scantily clad, beneath her skirts.

A poor commissioner found them and the woman was taken to a hospital in serious condition, while the children were sent to an orphan's home.

WOMEN MAY QUIT BAY STATE

Dr. Harriet E. Clark Suggests Exodus or the Ballot.

Boston, Feb. 27.—An exodus of Massachusetts women to some state granting

THE BRAINERD DAILY DISPATCH

Volume 12, Number 227

BRAINERD, MINNESOTA, THURSDAY, FEBRUARY 27, 1913

Price Two Cents

THINKS HE CAN SUBDUE REBELS

Huerta Looks Confidently to Future of Mexico.

LOAN OF 200,000,000 PESOS

Minister of Finance Will Ask Congress to Authorize Bond Issue for Pacification and Rehabilitation of the Republic—New Ambassador to the United States Has Been Appointed.

Mexico City, Feb. 27.—Two hundred million pesos is the amount the minister of finance probably will ask congress to authorize the government to raise by means of bonds for the pacification and the rehabilitation of Mexico.

At the time of the fall of the Madero regime a bill for a bond issue of 100,000,000 pesos for the same purpose was introduced in congress.

Minister Obregon discussed the question with a committee of congress and the measure probably will be introduced. It is believed some part of this sum will be used for the payment of indemnities.

Enilio Rabasa, a member of the senate and regarded as the greatest authority in Mexico on international law, has been appointed ambassador to the United States. He was governor a few years ago of the state of Chihuahua, but his greatest claim to distinction is his work as an attorney and as the representative of the government at international scientific congresses. He was not allied with the Madero administration. He is fifty-six years old and speaks English fluently.

The government looks confidently to the future. It was announced officially that the rebel difficulties at Laredo and Matamoros had been arranged and that troops had been sent to Aguascalientes to install General Carlos Garcia Hidalgo as military governor.

Argumedo, one of Orozco's generals, has notified the government that he will place his men in camp at Soledad, in the state of San Luis Potosi, or any other place indicated, pending a conference to arrange details for mustering out or re-enlisting the regular men.

It is not expected that the Zapatista problem, especially in the state of Morelos, will be solved immediately, but several minor chiefs have announced their willingness to serve the government.

Government officials realized the probability of a difficult campaign in the South, but President Huerta, who commanded the federals in the campaign which most nearly resulted in the ending of the Zapatista trouble and was checked only by Madero's benevolent interference, believes he knows the situation sufficiently well to end the trouble.

TO WITHHOLD RECOGNITION

That Question Will Be Up to Wilson Administration.

Washington, Feb. 27.—Practical recognition of the new provisional government of Mexico is not a matter requiring immediate attention of the secretary of state and it was made practically certain that that is another subject which will be left to the next administration.

In the opinion of state department officials the United States has no interest in Mexico that will suffer by withholding the full recognition and also all necessary business can be discharged under the existing working arrangement that Ambassador Wilson has set up. This amounts to the recognition of a de facto condition. It is no wise commits the United States government to an acknowledgment of the legality of the Huerta government and that question must be determined hereafter entirely upon the basis of performance.

EMILIO MADERO NOT KILLED

Governor Trevino Wires He Was Not Executed Near Monterrey.

Laredo, Tex., Feb. 27.—In response to a telegram of inquiry relative to the reported death of Emilio Madero, brother of the late president of Mexico, near Monterrey, General Geronimo Trevino, governor of the state of Nuevo Leon, sent the following message from Monterrey:

"There has been no execution of Emilio Madero, nor was he killed in this vicinity, nor is there any reason why harm should be done to the honorable person of such a man as Don Emilio Madero."

In the Eye of the Beholder. Jimmie was playing with the boy next door. Nurse went to get him, but he refused to come. So he was carried, screaming, away. The family and neighbors commented: Sister—He's a contrary little rogue. Father—He's a stubborn little rascal. Neighbors—He's a little savage. Mother—How strong willed Jimmie is!—Woman's Home Companion.

John Q. Thompson Dies. Chicago, Feb. 27.—John Q. Thompson, aged sixty-three, first assistant attorney general of the United States, died here of uraemic poisoning. He had been in a critical condition since last Saturday, when he was suddenly stricken.

M'REYNOLDS MAY LAND POSITION

New York Lawyer Rumored for Attorney General.

HANDLED IMPORTANT CASES

Prospective Head of Department of Justice Prosecuted Government Suits Against the Tobacco Combine and Had Charge of the Litigation Against the Hard Coal Trust.

Washington, Feb. 27.—Chief interest in the cabinet situation in Washington centered about the attorney generalship and a report that James C. McReynolds of New York is foremost among those under consideration for the place by President Elect Wilson.

Coupled with Mr. McReynolds' name as a probability for this portfolio was that of Edgar H. Farrar of New Orleans, former president of the American Bar association.

Men high in Democratic councils declared that McReynolds and Farrar had been under consideration for some time, but that late developments seemed to point to the selection of McReynolds, who was assistant attorney general in 1903-07 and has long been specially retained by the United States in trust prosecutions.

Though a Democrat, Mr. Reynolds was engaged to prosecute the government's suits against the tobacco trust and had charge of that case from the beginning until the dissolution of the American Tobacco company. He made a particular study of the tobacco trade and manufacturing conditions and when it came to the arrangements for the dissolution decree his knowledge of the tobacco brands and the intricacies of the trust organization proved of great value. He also had charge of the prosecution of the government's suit against the hard coal trust and carried the case through the supreme court, which annulled the so called 65 per cent contracts.

Mr. McReynolds is a native of Kentucky, a graduate of the law department of the University of Virginia and practiced law for many years in Nashville, Tenn. He located in New York in 1907.

PASSES GOOD ROADS BILL

House Makes Three Radical Alterations in Minnesota Laws.

St. Paul, Feb. 27.—The house, by a vote of 90 to 13, passed the R. C. Dunn good roads bill, a codification of all the good road laws, but amended so as not to be contrary to the Elwell law.

The Dunn bill makes three radical changes in present road laws. They are:

First—Increases of the state road tax from one-fourth of a mill to 1 mill. The result will be a fund of at least \$1,350,000 available each year for road improvement.

Second—Abolition of the system of "working out" road taxes. Cash for taxes is demanded.

Third—Increase from \$150,000 to \$200,000 for use annually by good roads commission.

PASSES POSTOFFICE BILL

Carries Increase of \$3,000,000 Over House Measure.

Washington, Feb. 27.—The postoffice appropriation bill, carrying approximately \$283,000,000, an increase of nearly \$3,000,000 over the house bill, was passed by the senate. The largest single item in the bill is for the transportation of mails and mail routes, \$51,500,000 being authorized by the senate for this purpose.

The senate appropriated \$47,500,000 for the rural delivery service. The measure carries an increase of more than \$12,000,000 over the appropriations made last year, due to the establishment of the parcel post system.

Standard Oil Official Dead.

Palm Beach, Fla., Feb. 27.—James A. Moffett, vice president of the Standard Oil company of New Jersey, died here after a brief illness. He was sixty-two years old and is survived by a widow, two sons and a daughter.

STORMS PREVENT WARFARE

Winter Weather Halts Operations in the Balkans.

London, Feb. 27.—The operations of the five armies engaged in the Balkan war have been brought practically to a standstill by the wintry weather. Snow storms are frequent and the roads are in a deplorable state. The daily official dispatches repeat the stereotyped statement, "nothing of importance has occurred."

HENRY P. FLETCHER.

Minister to Chile Refuses to Resign.

OTHERS MAY FOLLOW DIPLOMAT'S EXAMPLE

American Minister to Chile Refuses to Resign.

Washington, Feb. 27.—Basing his position on the fact that he took the diplomatic civil service examination, Henry P. Fletcher, the American minister to Chile, will not offer his resignation before the inauguration of President Wilson. This determination probably will form a basis for the test of a permanency of the civil service, as it applies to the diplomatic service.

Fletcher entered the diplomatic service as the result of an examination and worked up from a minor secretaryship to the post of charge d'affaires in Peking, China, where he came into prominence in connection with the Hukwang railway loan.

Because of the ability he showed while in Peking and his loyalty to the policy of the government Mr. Fletcher was appointed minister to Chile. Although Fletcher always has been a Republican he has made public his intention not to follow the recognized customs of offering his resignation before the inauguration of the new president.

A number of American ministers, including twelve in Latin-America alone, and one ambassador, Mr. Rockhill, at Constantinople, have risen from the lower grades of the service, in accordance with the system of examination and promotion created by executive order.

Many officials of this status, who can assert that civil service principles have governed their appointments, may follow Mr. Fletcher's example.

KILLS SCHOOL BOOK BILL

North Dakota House Refuses to Create State Commission.

Bismarck, N. D., Feb. 27.—After a heated debate in the house a bill creating a state text book commission and providing for uniformity of text books was recommended for indefinite postponement. Charges that agents of the American Book company have been going through the state offering bribes to educators and school boards failed to influence the house in favor of the bill.

When a bill relating to subjects to be taught in the public schools was considered Representative Hjelmstad declared that the pupils would be better off if they were to study less grammar, geography, etc., and learn "practical" things.

TRAPPED BY A DICTAPHON

Arson Suspects Discuss Plans When Put in Same Cell.

South Bend, Ind., Feb. 27.—A dictaphon has entered into the arson investigation here, it became known. Police officials of this city and Fort Wayne declare that Benjamin and David Rosenberg and Abraham Franklin hopelessly involved themselves while they occupied the same cell here Monday night.

The officials say the three men, who are under indictment charged with arson, freely discussed their plans of defense and various fires. The men are now in the jail at Fort Wayne charged with setting fire to a store.

HOUSE PASSES NAVAL BILL

Authorizes Construction of Only One Battleship.

Washington, Feb. 27.—After four days of debate, accompanied at times by scenes of disorder seldom witnessed at the Capitol, the house passed the naval appropriation bill, carrying approximately \$138,000,000, and authorizing the construction of one battleship, six torpedo boat destroyers and four submarines.

An amendment to provide for one battleship, instead of two as recommended by the committee, was carried by a vote of 174 to 156.

An amendment offered by Representative Calder of New York and adopted requires that the one ship shall be constructed in a government navy yard.

INTERVENTION IS STOUTLY OPPOSED

Foreign Relations Committee Discusses Move.

IS VERY DIFFICULT PROBLEM

Present Administration Passes Delicate Complication to Successive One. Madero Said to Be Unbalanced—Appointment of Huerta Not Thought End of Mexican Trouble.

By ARTHUR W. DUNN.

Washington, Feb. 27.—[Special.]—Prominent members of the foreign relations committee of the senate have been discussing the probable intervention in Mexican affairs, and they do not take kindly to the prospect. They say that intervention will not be a popular move for any administration. Yet it would be almost impossible, it was said, to prevent intervention in case an attack was made upon American citizens. The administration which would hesitate to send an army to Mexico in that case would be severely criticised, it was asserted.

Within less than two weeks of a change of administration the situation is anything but pleasant to contemplate. If intervention can be avoided until after Mr. Wilson becomes president it may be possible to still further postpone, if not prevent, such a move. No doubt that every influence Mr. Bryan can bring to bear will be against intervention. Without any intention of so doing the present administration passes on to its successor a very difficult foreign complication.

Former Diaz Adherents.

It is plain that most of the opposition to Madero was from the adherents of the old Diaz regime. This can be ascertained by talking with the friends of the old dictator, many of whom are now in Washington and some of whom are found in congress.

One of those prominent in public life asserts that Madero's mind is not right and that he would have been in no condition to rule the country even if he had not been ousted. The substitution of General Victoriano Huerta temporarily in his place, it is thought, may not have helped the situation much.

One on Mendell.

Congressman Mendell of Wyoming was trying to get an appropriation attached to a bill providing \$200,000 for the destruction of predatory wild animals on national reserves and game preserves. Congressman Roddenberry of Georgia, remembering Mendell's several days' attack upon the river and harbor bill, said:

"From the gentleman's statement it is evident there is nothing for the government to appropriate for in Wyoming except predatory wild animals, national forests, sheep, army posts and reservations, public buildings and the salaries of able statesmen."

As Mendell and his able Wyoming associates have secured something like \$25,000,000 for the things enumerated, the shot of Roddenberry created considerable amusement in the house.

Sims' Sympathy.

It was during the discussion of the anti-liquor bill that a number of members expressed their adherence to the general principles of liquor reform, but doubted the constitutionality or the rights of the government or something of that sort; anyway there was some reason they could not support it.

"I rise to express my sympathy," said Congressman Sims of Tennessee when he addressed the house, "for those great constitutional lawyers who wear the constitution as a hobbie skirt and fall down every time they try to go forward and fall down every time they try to go to the right or left, who can only stand where they are until they shrivel up or turn to a pillar of salt, like Lot's wife."

Texas and Kentucky.

Sherley of Kentucky and Henry of Texas were having a little skirmish. "Since I heard the gentleman from Kentucky," said Henry, "I do not know that I ought to let my assertion stand, because I infer that Mr. Sherley is a great lawyer and will admit it himself upon the slightest provocation."

A Real Temperance Lecture.

Few speeches on the Kenyon liquor bill will be more quoted than that of Senator Webb of Tennessee, who is serving a short term from his state. He told how General Lee made the army a temperance organization and thereby strengthened it. He told about the boys he had known who had become great men, while those who had become liquor drinkers, though bright and intelligent, had fallen by the wayside.

"I have spent more than sixty years in a boarding school for boys," said this man, who did not look that old as he was speaking, and then he told about some of the men who had gone from his school. The brilliant Senator Carmack was one of his pupils.

The Way Champ Put It.

Lloyd of Missouri had control of the time on a proposition in the house, and Fitzgerald wanted time to ask Pujo of investigation fame a few questions. Lloyd yielded time to Pujo. "The gentleman from Louisiana," said Speaker Clark, "is recognized for ten minutes in order to give Mr. Fitzgerald an opportunity to catechise him."

Kerosene.

Kerosene is not so explosive as in flammable, but it should never be brought in contact with fire.

GEORGE B. MCLELLAN.

Appears Before Committee Probing New York Police.

REFORM NEW YORK POLICE

Three Committees Join Forces for Sweeping Changes.

New York, Feb. 27.—Three committees, one appointed by the legislature, one by the board of aldermen and one by an organization of citizens, joined in a culminating effort to reform the New York police force. The result of their labors probably will be legislative bills providing for sweeping changes.

Mayor Gaynor was the principal witness before the executive committee and two of his predecessors, Mayors McClellan and Low, gave their views to the committee, of aldermen. At the same time the citizens' committee, appointed immediately after the murder of Herman Rosenthal, the gambler, laid before the legislative committee detailed recommendations.

The most radical reform suggested was the appointment of a new commission to be called "the board of social welfare," which should take from the present police force the power of regulating gambling, social vice and the liquor traffic.

THAW DECLINES TO GIVE ANY EVIDENCE

Committee Probing Efforts to Secure His Freedom.

Fishkill on Hudson, N. Y., Feb. 27.—Harry K. Thaw, slayer of Stanford White, refused to testify before Governor Sulzer's committee of inquiry which is investigating an alleged conspiracy to obtain Thaw's release from the Matteawan hospital. Thaw declared that he would answer questions only if allowed to testify "in the same place and under the same circumstances as other witnesses," and "without pretense of insanity." He said he had taken this position "on advice," but refused to say who had advised him.

The committee came here from Albany after hearing John Nicholson Anhalt, a New York lawyer, testify that he had received \$25,000 fee from an agent of Thaw to obtain his release. Anhalt also testified concerning his relations with Dr. John W. Russell, superintendent of the Matteawan hospital, denying the latter's accusation that he had offered the doctor a \$20,000 bribe to aid in obtaining Thaw's freedom and making the counter charge that Dr. Russell had said "he wouldn't do anything for Thaw unless he got money for it."

STATE OFFICIAL RESIGNS

South Dakotan Is Accused of Padding Vouchers.

Pierre, S. D., Feb. 27.—State Land Commissioner H. C. Brinker sent his resignation to the governor and with it refunded \$535.85, which he is charged with having obtained through his manipulation of automobile hire vouchers. About one hour later Mr. Brinker went to the office of Police Justice Slindee, where a warrant for his arrest was served on him by Sheriff Quinn.

He waived examination and was placed under \$3,000 bond for his appearance in circuit court at the May term to answer to the charge of obtaining money under false pretense. The bond was prepared and signed and he was released.

The accidental discovery of a voucher for a greater sum than was paid for service was discovered by a man who was looking up other matters. This was taken to Attorney General Johnson, who began an investigation.

UPHOLDS BRIBERY CHARGE

Committee Reports Tobacco Agent Was Rightly Accused.

Bismarck, N. D., Feb. 27.—The senate committee named to investigate charges against B. J. Ness, said to be an American Tobacco company agent, accused of attempting to bribe certain members of the house to vote against the anti-snuff bill, reported in effect that the circumstances had been found to be as represented by A. C. Divet, who preferred the charges.

BITTERLY FLAYS PRESIDENT TAFT

INSANE HUSBAND KILLS WIFE Drags Woman From Bed and Jumps on Her Body.

Madison, Minn., Feb. 27.—Lars Falkum, sixty-five years old, a farmer in the town of Friendship, Yellow Medicine county, in a fit of insanity, dragged his wife, eighty years old, from bed and jumped on her body, crushing all her ribs. She died instantly. Falkum then started after his daughter, aged twenty, but she escaped by running to the home of a neighbor.

Falkum, who showed previous signs of insanity, had been watched closely. Falkum was suffering from cancer. He has been sent to the St. Peter insane hospital.

PLAN TO DISBAND FORCES

Russia and Austria Said to Contemplate Action on Frontier.

St. Petersburg, Feb. 27.—Demobilization of the Austrian and Russian forces has been decided on, according to information from a most reliable source, as a result of the recent exchange of letters between Emperor Francis Joseph and the Russian emperor. The extra units concentrated on the respective frontiers, it is said, will be withdrawn simultaneously in the near future and the reservists disbanded.

This action coincides with the preparations for the centenary celebration of the Romanoff dynasty, which it is desired to mark by peace in international relations and good will in internal politics. An amnesty decree on a large scale now is being prepared.

WILSON WON'T JOIN CLUB

Declines Invitation to Become Member of Chevy Chase.

Washington, Feb. 27.—President Elect Wilson has declined membership in the exclusive Chevy Chase club in Washington, to which former President Roosevelt, President Taft, practically every member of the diplomatic corps and most of the high officials of the government belong.

Some time ago the board of governors asked Mr. Wilson to become an honorary member, which would have given him the club privileges immediately, although it usually takes two years after a member is proposed before his application is approved. Mr. Wilson declined the invitation, stating that he expected to give all his time in Washington to public business.

HOUSE TO PROBE WICKERSHAM

Committee Orders Inquiry Into Halting of Importers' Trials.

Washington, Feb. 27.—Right on the heels of the dismissal by the department of justice in Texas of criminal indictments against Standard Oil officials, the house judiciary committee ordered an investigation of Attorney General Wickersham's action in halting criminal prosecutions of New York china importers who are alleged to have defrauded the government of millions in importing Limoges china ware.

German Army Aviator Killed.

Melhausen, Germany, Feb. 27.—Sergeant Helfersneider, army aviator, was killed and Lieutenant Linke, his aid, was slightly hurt when their aeroplane fell to earth from a height of sixty feet.

GRAIN AND PROVISION PRICES

Senator Crawford Comments on Land Office Removal.

GAMBLE WINS HARD FIGHT

South Dakotan Secures an Executive Order Abolishing Land Offices at Chamberlain and Gregory and Establishing New One at Carter—Action Draws Caustic Comment From His Colleague.

Washington, Feb. 27.—The effort that Senator Gamble of South Dakota has been making to obtain the location of a new land office at Carter, S. D., met with success when President Taft signed an order which abolishes the two land offices at Chamberlain and Gregory in that state and establishes the new one at Carter.

The order also provides that part of the territory within the Chamberlain district, lying north of the White river and west of the Missouri, shall be attached to the land office at Pierre. Carter is to have jurisdiction over the rest of the public lands formerly included in the Chamberlain and Gregory offices.

The proposition has met with bitter opposition from Senator Crawford, who, on several occasions has issued public statements declaring that this move was a part of a conspiracy on the part of Senator Gamble, Representatives Martin and Burke and the Jackson brothers of South Dakota, in which they attempted to defeat the election of Dean Sterling to the senate. He charged they agreed to have the land offices moved to Carter to benefit the Jacksons for their alleged aid in the plan.

Senator Gamble and the representatives have denied Senator Crawford's charges. Secretary Fisher of the interior department recently decided against the proposed change, because the Northwestern railroad was not going to extend its line to that point in the near future.

President Taft Appealed To.

The president was appealed to and it was pointed out to him by the advocates of the change that most of the public lands in the Chamberlain and Gregory districts had been taken up and that Carter was much nearer to lands which are being opened to settlement.

When Senator Crawford learned that the president had agreed to the Carter location he issued another statement criticising the president and renewing his charges of conspiracy.

"I have known for several days that Senator Gamble and Representatives Martin and Burke and the Jacksons were moving heaven and earth to persuade the president to reverse the decision of Secretary Fisher," said Senator Crawford.

"Fisher decided the case on the merits. Taft has made a mere factional decision to save the faces of Gamble, Martin and Burke. The land office will be moved to a place out on the prairie, seventeen miles away from the railroad. No one will be fooled into thinking the order was made on its merits.

"It is monstrous that such a thing as this should occur. The people of South Dakota will say what they think of it in due time.

"It is made by the president just before going out of office because the parties interested knew that the new president would not consider the proposition for a moment. It is a fitting end of the Taft administration.

"I am proud of the fact that I did all in my power to prevent this indecent misuse of administrative power to help a few politicians to pay for political services."

EVICTED IN SNOW STORM

Mother Tries to Protect Four Children in an Alley.

Milwaukee, Feb. 27.—Mrs. Lucy Wood, thirty-two years old, is reported dying in the county hospital as the result of attempting to save her four children from being frozen to death after all were ejected from their three-room home for failure to pay the rent.

Driven into a blinding snow storm the family sought refuge in an alley. For hours the mother stood with the children, scantily clad, beneath her skirts.

A poor commissioner found them and the woman was taken to a hospital in serious condition, while the children were sent to an orphan's home.

WOMEN MAY QUIT BAY STATE

Dr. Harriet E. Clark Suggests Exodus or the Ballot.

Boston, Feb. 27.—An exodus of Massachusetts women to some state granting them suffrage was declared by Dr. Harriet E. Clark at the hearing before a legislative committee to be inevitable, unless the word "male" was stricken from the provision of the state constitution covering the qualifications for voters.

Others who spoke in favor of woman suffrage were Louis D. Brandeis and Joseph Walker. Several anti-suffrage speakers opposed the proposed constitutional change.

READING DREAMS TO CURE INSANE

Unique System of Healing
Tried in New York.

INTERPRET QUEER VISIONS.

Sufferers at Ward's island and Other Points Now Receiving Strange Treatment—They Are Told Real Cause of Trouble, and Ills Then Vanish, According to Report.

New York is experimenting at Ward's island with the Freud system of curing the insane, and the treatment will be extended to the asylums at Kings Park and Central Islip, N. Y., and to other institutions if the experience justifies. There are at present more than 20,000 cases of insanity under observation and treatment within 100 miles of New York city.

The experiments are under the direction of Dr. August Hoch, and they are being carried on in the Psychiatric Institute. Only selected cases, mostly of the neurasthenic types, are admitted. The so-called Freud system was originated by Professor Freud of the University of Vienna. He was in this country in 1910, when he delivered a course of lectures at Clark university, Worcester, Mass. His system, it is said, is limited to neuropathic or neurasthenic patients. The method is called "psychoanalysis."

The usual course of treatment is as follows: The patient lies on his back on a lounge, the physician sitting behind his head. In this way, according to a recent article by Dr. A. A. Brill, chief assistant of psychiatry at Columbia university, the patient remains free from all external influences and impressions. The main object is to avoid all muscular exertion and distraction, thus allowing thorough concentration of attention on his psychical activities.

Patient Questioned.

The patient is then asked to give detailed account of his troubles, having been urged before this to tell everything that comes into his mind even things that may cause embarrassment or mortification. In listening to such a history the doctor is apt to notice many gaps of memory both as to time and casual relations. The patient is then asked to fill in those gaps by concentration of attention, but the unintentional thoughts which originate in that connection are pushed back with the greatest resistance, and when the actual recollection comes back it is accompanied by distinct pain or discomfort.

During the treatment the doctor or operator has to "interpret" for symbolic action mistakes in speech, etc., by the patient, and the chief task of the operator is in interpreting or "reading" dreams, inasmuch as dreams, according to Professor Freud, give the most direct access to the unconscious. This interpretation of the patient's dream will overcome the patient's resistance and will "give the unconscious access to the conscious."

Dream Analyzers Needed.

Not only are expert dream analyzers and thought searchers required for the successful application of Professor Freud's ideas, but the process is a long one, requiring from six months to three years. But cures have been effected.

LOTS OF BEAUTIFUL, SOFT, GLOSSY HAIR--NO MORE DANDRUFF--25 CENT "DANDERINE"

Hair Coming out?—If Dry, Brittle, Thin or Your Scalp Itches and is full of Dandruff—Use "Danderine."

Within ten minutes after an application of Danderine you cannot find a single trace of dandruff or a loose or falling hair and your scalp will not itch, but what will please you most will be after a few week's use, when you will actually see new hair, fine and downy at first—yes—but really new hair—growing all over the scalp.

A little Danderine will immediately double the beauty of your hair. No difference how dull, faded, brittle and scraggy, just moisten a cloth with Danderine and carefully draw it through your hair, taking one small strand at a time. The effect is amazing—your hair will be light, fluffy and wavy, and have an appearance of abundance; an incomparable lustre, softness and luxuriance, the beauty and shimmer of true hair beauty.

FOR SALE

\$2500.00—Seven rooms, all modern, brick residence on the north side. Has heat, bath, electric lights and hardwood floors, corner lots, barn and nice shade trees. The property is worth \$3500. For quick sale the price is \$2500.00.

\$600.00—A very choice residence location, corner lots, 62 1/2 ft. front, on North Sixth Street.

\$600.00—Confectionery store, including fixtures, show cases, soda fountain and stock.

JAMES R. SMITH, Agency

In the most refractory cases. The Freud enthusiasts say it is the best treatment for all chronic cases of "psychoneuroses," such as obsessions and hysterias in which physical disturbances are present.

Hysterical symptoms, according to Freud, come out of the intentional repressing out of consciousness the memory of a painful experience. Though in time this painful experience may be forgotten, some slight event is likely to recall the pain or the emotion, even while its cause remains subconscious.

In hysterically predisposed patients this awakening of emotion causes hysterical symptoms, though the patient does not recall the painful experience. It has been found, according to Freud and his disciples, that when the operation succeeds in thoroughly awakening in the patient the memories connected with the first appearance of the symptoms and shows the patient the cause of them, then, if the patient has given full expression to his emotion, the symptoms disappear without returning.

It is all up to the patient. If he cooperates he may be cured of his hysteria or his obsession. He must be in his normal state—that is, he must be able to answer questions and to realize what the operator seeks. There is in ordinary cases no hypnosis, no "passes" nor suggestions, no laying on of hands nor other such performances.

Controlled by Dreams.

Dreams, so the Freud school of analysts aver, are divided into three classes—first, those in which the wish is fulfilled; second, those which represent a repressed wish as concealed and, third, those which represent a repressed but not sufficiently hidden wish, so that, though human beings regard themselves as free agents, they are actually "bossed" by their dreams.

But, while the ordinary neurotics are treated in the Freud system while in a normal state, hypnosis is fully recognized as an adjunct and is often resorted to.

Lincoln's Last Law Case.

Lincoln tried his last case in Chicago. It was the case of Jones versus Johnson in April and May, 1890, in the United States circuit court before Judge Drummond. The case involved the title to land of very great value, the accretion on the shore of Lake Michigan. During the trial Judge Drummond and all the counsel on both sides, including Lincoln, dined together at the house of Isaac N. Arnold.

At the conclusion of the dinner this toast was proposed: "May Illinois furnish the next president of the United States." It was drunk with great enthusiasm by the friends of both Lincoln and Douglas.—Chicago Record-Herald.

READING DREAMS TO CURE INSANE

Unique System of Healing
Tried In New York.

INTERPRET QUEER VISIONS.

Sufferers at Ward's Island and Other
Points Now Receiving Strange Treat-
ment—They Are Told Real Cause of
Trouble, and Ills Then Vanish, Ac-
cording to Report.

New York is experimenting at
Ward's Island with the Freud system
of curing the insane, and the treatment
will be extended to the asylums at
Kings Park and Central Islip, N. Y.,
and to other institutions if the experi-
ence justifies. There are at present
more than 20,000 cases of insanity
under observation and treatment with-
in 100 miles of New York city.

The experiments are under the di-
rection of Dr. August Hoch, and they
are being carried on in the Psychiatric
Institute. Only selected cases, mostly
of the neurasthenic types, are admit-
ted.

The so called Freud system was origi-
nated by Professor Freud of the Uni-
versity of Vienna. He was in this
country in 1910, when he delivered a
course of lectures at Clark university,
Worcester, Mass. His system, it is
said, is limited to neuropathic or neu-
rasthenic patients. The method is called
"psychoanalysis."

The usual course of treatment is as
follows: The patient lies on his back
on a lounge, the physician sitting be-
hind his head. In this way, accord-
ing to a recent article by Dr. A. A.
Brill, chief assistant of psychiatry at
Columbia university, the patient re-
mains free from all external influences
and impressions. The main object is
to avoid all muscular exertion and dis-
traction, thus allowing thorough con-
centration of attention on his psychi-
cal activities.

Patient Questioned.

The patient is then asked to give
detailed account of his troubles, hav-
ing been urged before this to tell ev-
erything that comes into his mind
even things that may cause embarrass-
ment or mortification. In listening to
such a history the doctor is apt to no-
tice many gaps of memory both as to
time and casual relations. The patient
is then asked to fill in those gaps by
concentration of attention, but the un-
intentional thoughts which originate
in that connection are pushed back with
the greatest resistance, and when the
actual recollection comes back it is ac-
companied by distinct pain or discom-
fort.

During the treatment the doctor or
operator has to "interpret" for sym-
bolic action mistakes in speech, etc.,
by the patient, and the chief task of
the operator is in interpreting or "read-
ing" dreams, inasmuch as dreams, ac-
cording to Professor Freud, give the
most direct access to the unconscious.
This interpretation of the patient's
dream will overcome the patient's re-
sistance and will "give the uncon-
scious access to the conscious."

Dream Analyzers Needed.
Not only are expert dream analyzers
and thought searchers required for the
successful application of Professor
Freud's ideas, but the process is a long
one, requiring from six months to three
years. But cures have been effected.

JAMES R. SMITH, Agency

In the most refractory cases. The
Freud enthusiasts say it is the best
treatment for all chronic cases of "psy-
choneuroses," such as obsessions and
hysteria in which physical distur-
bances are present.

Hysterical symptoms, according to
Freud, come out of the intentional
repressing out of consciousness the mem-
ory of a painful experience. Though
in time this painful experience may be
forgotten, some slight event is likely
to recall the pain or the emotion, even
while its cause remains subconscious.

In hysterically predisposed patients
this awakening of emotion causes hys-
terical symptoms, though the patient
does not recall the painful experience.

It has been found, according to Freud
and his disciples, that when the opera-
tion succeeds in thoroughly awakening
in the patient the memories connected
with the first appearance of the sym-
ptoms and shows the patient the cause
of them, then, if the patient has given
full expression to his emotion, the
symptoms disappear without return-
ing.

It is all up to the patient. If he co-
operates he may be cured of his hys-
teria or his obsession. He must be in
his normal state—that is, he must be
able to answer questions and to realize
what the operator seeks. There is in
ordinary cases no hypnosis, no "pass-
es" nor suggestions, no laying on of
hands nor other such performances.

Controlled by Dreams.
Dreams, so the Freud school of alien-
ists aver, are divided into three class-
es—first, those in which the wish is
fulfilled; second, those which represent
a repressed wish as concealed and
third, those which represent a repress-
ed but not sufficiently hidden wish, so
that, though human beings regard
themselves as free agents, they are
actually "bossed" by their dreams.

But, while the ordinary neurotics are
treated in the Freud system while in a
normal state, hypnosis is fully recog-
nized as an adjunct and is often re-
sorted to.

Lincoln's Last Law Case.
Lincoln tried his last case in Chi-
cago. It was the case of Jones versus
Johnson in April and May, 1890, in the
United States circuit court before
Judge Drummond. The case involved
the title to land of very great value,
the accretion on the shore of Lake
Michigan. During the trial Judge
Drummond and all the counsel on both
sides, including Lincoln, dined together
at the house of Isaac N. Arnold.

At the conclusion of the dinner this
toast was proposed: "May Illinois fur-
nish the next president of the United
States." It was drunk with great en-
thusiasm by the friends of both Lin-
coln and Douglas.—Chicago Record-
Herald.

AMENDMENT WAS ADOPTED LAST NIGHT

Charter Commission Votes to Transfer Amount Equal to Interest on Water and Light Bonds to

SPEC. ST. IMPROVEMENT FUND

Special Council Meeting Tonight to Consider Proposed Amendment to City Charter

The charter commission was in session Wednesday evening at the city council chambers and unanimously adopted the proposed amendment to the city charter relating to the transfer of an amount equal to the interest on the water and light bonds of the city into a special street improvement fund.

President A. J. Halsted presided and Secretary Henry I. Cohen was present. The commissioners present were A. J. Halsted, Erick Aronberg, Henry I. Cohen, James M. Elder, H. F. Michael, R. R. Wise, Dr. Werner Hemstead, Geo. D. LaBar, C. H. Paine and N. W. Betzold. The commissioners absent were Carl Zapf, James Cullen, Richard Ilse, Judd Wright and Edward F. A. Evenson. A special meeting of the city council has been called tonight and if the council favors it, the amendment will be published Saturday afternoon.

The proposed amendment reads: That the Charter of the City of Brainerd be amended by the addition thereto of the following provision:

That on the first day of May of each year, an amount equal to the interest on the water and light bonds of the City of Brainerd, and of any other public utility bonds of said city, now held by the State of Minnesota, or which may hereafter become the property of said state, shall be transferred by the city treasurer from the fund in the hands of the said city treasurer belonging to the water and light bond, or the fund belonging to any public utility for which said bonds were issued, into a special street improvement fund, and shall be used solely for the purpose of defraying the expense of paving, or otherwise improving, the crossings and intersection of the streets of the city, and such other portions of such streets as are in front of property exempt from assessment and belonging to the city; Provided, that whenever the amount of such special street improvement fund shall exceed twenty-five per cent of the amount of permanent improvement revolving fund bonds of the city, such excess shall be transferred by the city treasurer from such special street improvement fund into the general fund of the city.

THE MOST HEALTHFUL FOOD KNOWN

It is perhaps not generally known among Brainerd families that "Minnesota" Spaghetti is one of the most healthful foods known.

It is four times as nutritious as beef-steak, six times as nutritious as potatoes, and because it contains more proteins than most food, it is more strength giving and less fattening. "Minnesota" Spaghetti gives the power of endurance without overloading the stomach and it should be freely eaten by everyone, and especially by children, in place of meat.

"Minnesota" Spaghetti is very easy to prepare, has a deliciously appetizing flavor and costs only about one cent a dish.—Adv.

BACHELOR REARS CHILDREN.

Aged New Jersey Man Has Brought Up Twenty-six Adopted Little Ones.

After raising twenty-six children, all of whom have become successful, Joseph Hinchman, a bachelor, eighty-eight years old, of Merchantville, N. J., is recovering from the final illness of his life. Hinchman adopted all the children when they were infants.

A plentiful diet of fat salt pork is the food recommended by the old farmer, and each of the foster children was fed liberally with this meat. At the age of twenty-one the children were cast on their own resources regardless of their success on the farm. From all their earnings their foster father deducted the expenses of board and clothing and placed the balance in the bank until they became of age.

None of the children lives on the farm now.

A Mistake Somewhere. Hubby—Of course, dear, it's only a rough idea of mine, but do you think it's possible that there's ever such a thing as a printer's error in that cookery manual of yours?—London Opinion.

\$100 REWARD, \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address: F. J. CHENEY & CO., Toledo, O. Sold by Druggists, 75c. Take Hall Family Pills for constipation.

WATER & LIGHT BOARD

Regular Monthly Meeting was Held Wednesday Evening at the Committee Room

The regular monthly meeting of the water and light board was held Wednesday evening at the committee room. All were present which included President M. T. Dunn, Commissioners Mons Mahlum and John M. Taylor and Secretary Wm. Nelson. The secretary's reports for January were read and accepted. The state board of health reported on water tested January 13 and said it was of a good sanitary quality.

The report on the consumption of water in the schools was submitted and the secretary was instructed to notify the school board of the meter registrations. The usual monthly bills and the payrolls were allowed. A. J. Lind asked that the water main on Northeast Second avenue be extended and the secretary was instructed to draw up a petition for Mr. Lind. The monthly requisition for supplies was allowed and ordered purchased in the usual way.

The question of installing new boilers at the pumping station was referred to Commissioners Mahlum and Taylor. It may be stated that the boilers have been in use since 1883. The selling of electrical supplies was discussed, but no definite action was taken. The secretary reported the purchase of a smokestack from the Diamond Boiler Works of Minneapolis at a cost of \$380 and the purchase was confirmed by the board.

COMMITTEE APPOINTMENTS

The Ladies Serving on the Various Committees of the Brainerd Musical Club

The following members of the Brainerd Musical Club have been appointed on committees:

Press committee: Mrs. Percy W. Donovan, Miss Susan McCoy.

Program committee: Mrs. Geo. D. LaBar, Mrs. W. A. M. Johnstone, Miss Nell Fie Alderman, Mrs. E. P. Slipp.

Literary committee: Mrs. W. C. Cobb, Mrs. C. M. Patek.

Civic committee: Mrs. A. D. Polk, Mrs. C. B. Rowley, Mrs. Walter Courtney.

Social committee: Miss Louise Barrett, Mrs. R. J. Hartley, Mrs. Howard G. Ingersoll, Miss Ethel Parker, Mrs. Geo. H. Warner.

House committee: Mrs. B. J. Broady, Mrs. A. W. Ide, Mrs. J. M. Hayes, Mrs. A. M. Opsahl, Mrs. A. C. Weber.

Year Book committee: Miss Millicent Mahlum, Mrs. J. A. Thabes, Mrs. D. M. Clark.

At the door: Mrs. J. M. Elder.

PLANS POLE DASH IN 'PLANE.

Captain Amundsen Will Try to Use Machine in Arctic.

Captain Roald Amundsen made public in Chicago recently his first definite statement concerning his projected north pole trip. He said:

"From San Francisco the Fram will sail north, heading for Bering strait, and in the breakup of the ice beyond there next spring will push in as far as the drifting ice fields as possible. When we can get no farther we shall establish ourselves, protect the ship by building an ice wall high around it and settle down for our five years of drifting."

"We shall be equipped with a high power wireless plant, and with the peculiar arctic adaptability to the etheric vibration we can doubtless maintain communications with the United States government stations in Alaska for some time, possibly two years."

"Should the drift not carry us directly to the pole," added the explorer, "it would be a great disappointment, but to guard against this I plan to take an aeroplane along if some aviator will volunteer to make the final dash to the north pole with me. I shall never be happy until the Norwegian flag has been placed at both poles. And I am relying on an aeroplane to take it there, for the Fram has only one chance in a thousand to strike the exact spot."

EGG DIET LAYS UP ATHLETE.

Runner of University of Pennsylvania Is Made Ill by Food Test.

Jim Bodley, University of Pennsylvania middle distance runner, is one of the students in the medical department who recently submitted to a severe test in order to prove that a man could subsist on an egg diet exclusively. As a result Bodley was laid up and could not run on Penn's two mile relay team at the Columbia indoor meet in New York.

Bodley had to go four days without eating. Hot water was the only nourishment during this period, but he reported daily for work on the track. At the end of the four days the men drank a dozen eggs for six days. Nothing but eggs were allowed, not even salt.

After the second dozen Bodley became ill, and the other day he collapsed in the classroom and was taken to the hospital.

Want to Live Long? Drink Sea Water.

Sour milk to prevent old age is not in it with sea water, according to William K. Ireton of Manassquan, N. J., who says he takes it every day as a tonic. Ireton, who is eighty years old, looks no more than forty.

DEERWOOD SCHOOL TO PRESENT PLAY

"A Little Heroine of the Revolution" to be Given Tuesday Evening March 4

STATUS OF THE BOND QUESTION

Knotty Legal Tangle Presented in a Fishing Case Which Came up Before Justice Maley

Deerwood, Minn., February 27.—The school children of Deerwood will on Tuesday evening, March 4, present the play, "A Little Heroine of the Revolution" at Hilyar's opera house. The children are industriously rehearsing their parts and it is said much histrionic ability will be shown by many of them. The story told by the play is of much interest and the children can count on a large audience anxious to see it.

Justice William E. Maley on Wednesday heard a case which presented several knotty tangles in a legal way. An Aitkin game warden, it is alleged, accused a Deerwood man of fishing without a license and the evidence at the trial developed that the man charged with fishing had a one-third interest in a fish house on Serpent lake. The man was not found fishing on the lake, neither were there any fish in his possession. It is further claimed the man had sent for a fishing license the day before but did not have it in his possession on Wednesday. Of the three who had built and owned the fish house, one it is said, had a license. Now the point is this, does a fractional interest in the building of a fish house bear out a charge of fishing without a license? A fine of \$10 and costs was imposed on Fred Hanna.

Miss Selma Anderson of Brainerd is the guest of Miss Mamie Erickson. Mrs. Carl Rossberg of Deerwood and Mrs. Olaf Skog of Crosby were Brainerd visitors Wednesday.

Miss Mamie Erickson visited in Brainerd Wednesday.

E. J. W. Donahue, W. H. Denny and Engineer Ferguson, all of Duluth, were at the Cuyuna-Mille Lacs mine Wednesday.

E. A. Lamb has gone to Duluth and Minneapolis on a business trip.

Wilson Bradley has returned from a visit in the Twin Cities and Illinois.

H. J. Ernster, William E. Maley, Thomas Keating and Hugo Barthelme attended the Knights of Columbus initiation at Brainerd Sunday.

G. E. Lent and R. B. Coffin have been appointed judges and Gust A. Oberg the clerk of election at the village election to be held March 11.

There is absolutely nothing doing in a political way in Deerwood. Nobody appears to be in the field for any kind of an office, which would lead the casual observer to figure it out, correctly that people were well pleased with things as they are and the officers they have.

R. R. Graham, the barber, has a hobby collecting "Uncle Walt's" philosophical dissertations.

The First National bank has made an application for a consignment of the new nickels with the bison head, but has received none to date. It is said the slot machine interests claim the new nickel will not operate their machines.

Dr. E. K. Copper, presiding elder of this district, held services at the Methodist church Wednesday evening, following which the quarterly conference was called.

Mr. and Mrs. H. J. Hage are expected home April 1 from their visit in California.

Services will be held at eight o'clock Sunday morning in the Catholic church, Rev. Father Tubiaux officiating.

It is now thought that all the formalities necessary to put the question of voting for waterworks and sewer bonds on the ballots for the general election March 11 cannot be executed within the time limit and accordingly a special election may have to be called to vote on these bonds, if the people so see fit.

LAXATIVE FOR OLD PEOPLE—'CASCARETS'

What Glasses are to Weak Eyes, Cascarets are to Weak Bowels—a 10c Box will Truly Amaze You

Most old people must give to the bowels some regular help, else they suffer from constipation. The condition is perfectly natural. It is just as natural as it is for old people to walk slowly. For age is never so active as youth. The muscles are less elastic. And the bowels are muscles.

So all old people need Cascarets. One might as well refuse to aid weak eyes with glasses as to neglect this gentle aid to weak bowels. The bowels must be kept active. This is important at all ages, but never so much as at fifty.

Age is not a time for harsh physics. Youth may occasionally whip the bowels into activity. But a lash can't be used every day. What the bowels of the old need is a gentle and natural tone. One that can be constantly used without harm. The only such tonic is Cascarets and they cost only 10 cents per box at any drug store. They work while you sleep.—Adv.

FOLEY KIDNEY PILLS

FOR BACKACHE, KIDNEYS AND BLADDER

PASSENGERS ON FREIGHTS

To Oblige Travelersmen Certain Local Freighters are Allowed to Carry Passengers

To oblige the travelingmen of this district and others interested, the Northern Pacific railway carries passengers on certain local freighters of the Lake Superior and St. Paul divisions.

Certain rules are prescribed which all conductors and passengers must obey. The most important one is to the effect that no cash fares will be received on the trains. Every passenger must supply himself with a ticket before he boards the train. If he has no ticket or mileage, the conductor pulls the air and deposits the passenger at the track within a mile from the station.

Occasionally a passenger breaks the ticket rule and if he is a new man in the country he frets and fumes and threatens to sue the company for not taking his money and for making him leave the caboose. One kicker like this often causes a lot of trouble, so much so that the travelingmen do all in their power to advise the people of the rules and to let them understand that this riding on a freight is an accommodation on the part of the railway and not something that the road is forced to provide.

Another thing that some people may not know is that the conductor of such a freight, or passenger train has certain police powers which authorize him to preserve order on his train and to make arrests.

Are You a Cold Sufferer?

Take Dr. King's New Discovery. The Best Cough, Cold, Throat and Lung medicine made. Money refunded if it fails to cure you. Do not hesitate—take it at our risk. First dose helps. J. R. Wells, Floydada, Texas, writes: "Dr. King's New Discovery cured my terrible cough and cold. I gained 15 pounds." Buy it at H. P. Dunn's.—Adv.

Palms of Muskat.

The use of the products of the palm are many in Muskat, Arabia. The sticks furnish timber which, though of a poor sort, is very valuable where no other is to be obtained; buds of the male palm are considered a great delicacy; the habitations of all the poorer natives are made of the fronds; the fiber of the stem is twisted into serviceable ropes; the seeds are pounded up and fed to cattle, while the fruit is at once the staple food of man and beast and an article of export equal in value to all other exports combined.

The Contest.

"Were you invited to Mrs. Flimig's reception?" "No," replied Miss Cayenne. "She preferred snubbing me by not sending an invitation to risking my snubbing her by rejecting it."—Washington Star.

No Need to Stop Work

When the doctor orders you to stop work it staggers you. I can't, you say. You know you are weak, run down and failing in health day by day, but you must work as long as you can stand. What you need is Electric Bitters to give tone, strength and vigor to your system, to prevent break down and built up you. Don't be weak, sickly or ailing when Electric Bitters will benefit you from the first dose. Thousands bless them for their glorious health and strength. Try them. Every bottle is guaranteed to satisfy. Only 50c at H. P. Dunn's.—Adv.

Application for Liquor License

To the Council of the City of Brainerd, Minnesota:

The undersigned, Tom Bosley, hereby makes application for a license to sell intoxicating liquors, at, upon and in the room and premises described as follows, to-wit: No. 715, Laurel Street, on the ground floor, in the City of Brainerd, from April 2nd, 1913, until April 2nd, 1914.

Dated February 26th, 1913.

(Signed) TOM BOSLEY.

Said applicant has been licensed to sell intoxicating liquors in the City of Brainerd, Minnesota from April 2nd, 1900, to April 2nd, 1906 and from April 2nd, 1910 to April 2nd, 1912.

Notice is hereby given that a hearing on the above application will be had on March 17th, 1913, at 8:00 o'clock p. m. at the regular meeting of the City Council of the City of Brainerd.

Dated February 26th, 1913.

Y. N. RODERICK, City Clerk.

Application for Liquor License

To the Council of the City of Brainerd, Minnesota:

MUSIC AND DRAMA

At The Empress

One of those incomparable Edison dramas is the feature at the Empress tonight. The "Phantom Ship" tells the story of a young woman, true to her sailor husband, struggling against poverty and the ardent love-making of another until the long absence of her husband convinces her of his death. But as she goes to the church to marry the other, a vision of her husband's ship warns her that he is still alive.

Home Talent Entertainment

A home talent entertainment will be given by the Old Favorites on Wednesday, March 5th at 8 o'clock, at the First Congregational church parlors.

The program will consist of old time favorite songs, recitations, etc., such as: "The Old Oaken Bucket," "Comin' Thru the Rye" and "Home Sweet Home."

The performers will appear in fancy costume. Among the specialties are Mesdames Alderman and Elder, in "Society Notes."

Don't miss it. Admission 25 cents.

AMENDMENT WAS ADOPTED LAST NIGHT

Charter Commission Votes to Transfer Amount Equal to Interest on Water and Light Bonds to

SPEC. ST. IMPROVEMENT FUND

Special Council Meeting Tonight to Consider Proposed Amendment to City Charter

The charter commission was in session Wednesday evening at the city council chambers and unanimously adopted the proposed amendment to the city charter relating to the transfer of an amount equal to the interest on the water and light bonds of the city into a special street improvement fund.

President A. J. Halsted presided and Secretary Henry I. Cohen was present. The commissioners present were A. J. Halsted, Erick Aronberg, Henry I. Cohen, James M. Eider, H. F. Michael, R. R. Wise, Dr. Werner Hemstead, Geo. D. LaBar, C. H. Paine and N. W. Betzold.

The commissioners absent were Carl Zapffe, James Cullen, Richard Ilse, Judd Wright and Edward F. A. Evenson. A special meeting of the city council has been called tonight and if the council favors it, the amendment will be published Saturday afternoon.

The proposed amendment reads: That the Charter of the City of Brainerd be amended by the addition thereto of the following provision:

That on the first day of May of each year, an amount equal to the interest on the water and light bonds of the City of Brainerd, and of any other public utility bonds of said city, now held by the State of Minnesota, or which may hereafter become the property of said state, shall be transferred by the city treasurer from the fund in the hands of the said city treasurer belonging to the water and light board, or the fund belonging to any public utility for which said bonds were issued, into a special street improvement fund, and shall be used solely for the purpose of defraying the expense of paving, or otherwise improving, the crossings and intersection of the streets of the city, and such other portions of such streets as are in front of property exempt from assessment and belonging to the city; Provided, that whenever the amount of such special street improvement fund shall exceed twenty-five per cent of the amount of permanent improvement revolving fund bonds of the city, such excess shall be transferred by the city treasurer from such special street improvement fund into the general fund of the city.

THE MOST HEALTHFUL FOOD KNOWN

It is perhaps not generally known among Brainerd families that "Minnesota" Spaghetti is one of the most healthful foods known.

It is four times as nutritious as beef-steak, six times as nutritious as potatoes and, because it contains more proteins than most food, it is more strength giving and less fattening.

"Minnesota" Spaghetti gives the power of endurance without overloading the stomach and it should be freely eaten by everyone, and especially by children, in place of meat.

"Minnesota" Spaghetti is very easy to prepare, has a deliciously appetizing flavor and costs only about one cent a dish.—Adv.

BACHELOR REARS CHILDREN.

Aged New Jersey Man Has Brought Up Twenty-six Adopted Little Ones.

After raising twenty-six children, all of whom have become successful, Joseph Hinchman, a bachelor, eighty-eight years old, of Merchantville, N. J., is recovering from the final illness of his life. Hinchman adopted all the children when they were infants.

A plentiful diet of fat salt pork is the food recommended by the old farmer, and each of the foster children was fed liberally with this meat. At the age of twenty-one the children were cast on their own resources regardless of their success on the farm. From all their earnings their foster father deducted the expenses of board and clothing and placed the balance in the bank until they became of age.

None of the children lives on the farm now.

A Mistake Somewhere.
Hubby—Of course, dear, it's only a rough idea of mine, but do you think it's possible that there's ever such a thing as a printer's error in that cookery manual of yours?—London Opinion.

\$100 REWARD, \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

WATER & LIGHT BOARD

Regular Monthly Meeting was Held Wednesday Evening at the Committee Room

The regular monthly meeting of the water and light board was held Wednesday evening at the committee room. All were present which included President M. T. Dunn, Commissioners Mons Mahlum and John M. Taylor and Secretary Wm. Nelson. The secretary's reports for January were read and accepted. The state board of health reported on water tested January 13 and said it was of a good sanitary quality.

The report on the consumption of water in the schools was submitted and the secretary was instructed to notify the school board of the meter registrations. The usual monthly bills and the payrolls were allowed. A. J. Lind asked that the water main on Northeast Second avenue be extended and the secretary was instructed to draw up a petition for Mr. Lind. The monthly requisition for supplies was allowed and ordered purchased in the usual way.

The question of installing new boilers at the pumping station was referred to Commissioners Mahlum and Taylor. It may be stated that the boilers have been in use since 1883. The selling of electrical supplies was discussed, but no definite action was taken. The secretary reported the purchase of a smokestack from the Diamond Boiler Works of Minneapolis at a cost of \$380 and the purchase was confirmed by the board.

PASSENGERS ON FREIGHTS

To Oblige Travelersmen Certain Local Freighters are Allowed to Carry Passengers

To oblige the travelingmen of this district and others interested, the Northern Pacific railway carries passengers on certain local freighters of the Lake Superior and St. Paul divisions.

Certain rules are prescribed which all conductors and passengers must obey. The most important one is to the effect that no cash fares will be received on the trains. Every passenger must supply himself with a ticket before he boards the train. If he has no ticket or mileage, the conductor pulls the air and deposits the passenger at the track within a mile from the station.

Occasionally a passenger breaks the ticket rule and if he is a new man in the country he frets and fumes and threatens to sue the company for not taking his money and for making him leave the caboose. One kicker like this often causes a lot of trouble, so much so that the travelingmen do all in their power to advise the people of the rules and to let them understand that this riding on a freight is an accommodation on the part of the railway and not something that the road is forced to provide.

Another thing that some people may not know is that the conductor of such a freight or passenger train has certain police powers which authorize him to preserve order on his train and to make arrests.

Are You a Cold Sufferer?

Take Dr. King's New Discovery. The Best Cough, Cold, Throat and Lung medicine made. Money refunded if it fails to cure you. Do not hesitate—take it at our risk. First dose helps. J. R. Wells, Floydada, Texas, writes: "Dr. King's New Discovery cured my terrible cough and cold. I gained 15 pounds." Buy it at H. P. Dunn's.—Adv.

Palms of Muskat.

The use of the products of the palm are many in Muskat, Arabia. The sticks furnish timber which, though of a poor sort, is very valuable where no other is to be obtained; buds of the male palm are considered a great delicacy; the habitations of all the poorer natives are made of the fronds; the fiber of the stem is twisted into serviceable ropes; the seeds are pounded up and fed to cattle, while the fruit is at once the staple food of man and beast and an article of export equal in value to all other exports combined.

The Contest.

"Were you invited to Mrs. Flimmit's reception?"
"No," replied Miss Cayenne. "She preferred snubbing me by not sending an invitation to risking my snubbing her by rejecting it."—Washington Star.

No Need to Stop Work

When the doctor orders you to stop work it staggers you. I can't, you say. You know you are weak, run down and failing in health day by day, but you must work as long as you can stand. What you need is Electric Bitters to give tone, strength and vigor to your system, to prevent break down and built up. Don't be weak, sickly or ailing when Electric Bitters will benefit you from the first dose. Thousands bless them for their glorious health and strength. Try them. Every bottle is guaranteed to satisfy. Only 50c at H. P. Dunn's.—Adv.

Application for Liquor License

"MICHAEL'S"

MUSIC AND DRAMA

At The Empress

One of those incomparable Edison dramas is the feature at the Empress tonight. The "Phantom Ship" tells the story of a young woman, true to her sailor husband, struggling against poverty and the ardent love-making of another until the long absence of her husband convinces her of his death. But as she goes to the church to marry the other, a vision of her husband's ship warns her that he is still alive.

Home Talent Entertainment

A home talent entertainment will be given by the Old Favorites on Wednesday, March 5th at 8 o'clock, at the First Congregational church parlors.

The program will consist of old time favorite songs, recitations, etc., such as: "The Old Oaken Bucket," "Comin' Thru the Rye" and "Home Sweet Home."

The performers will appear in fancy costume. Among the specialties are Mesdames Alderman and Elder, in "Society Notes."

Don't miss it. Admission 25 cents.

Surprise Your Friends

For four weeks regularly use Dr. King's New Life Pills. They stimulate the liver, improve digestion, remove blood impurities, pimples and eruptions disappear from your face and body and you feel better. Begin at once. Buy at H. P. Dunn's.—Adv.

Babies in the East.

In Cypress, at the important date of the first tooth appearing, friends gather, singing songs, while the child is bathed in water and boiled wheat. Afterward thirty-two of the boiled grains are strung on a thread and stitched to the baby's cap, which, of course, promptly produces the safe cutting of the other teeth.

A pretty custom prevails on the Isle of Rhodes, for there, on the eighth day from birth, the infant, after a final bath of wine and myrtle, is tenderly laid in a cradle surrounded by lighted tapers, while a child approaches, touches its lips with honey and says, "Be thou as sweet as this honey."

WELCOME NEWS FOR BRAINERD PEOPLE

Brainerd people who have stomach and bowel trouble will be glad to hear that the mixture of simple buckhorn bark, glycerine, etc., known as Adler-ika, can be obtained at Johnson's Pharmacy. It has been found that JUST A SINGLE DOSE of Adler-ika usually relieves sour stomach, gas on the stomach and constipation. QUICKLY because this simple new mixture drains off such a surprising amount of old foul matter from the body.—Adv.

CZAR TO CELEBRATE BIRTH OF THE ROMANOFF DYNASTY

Tercentenary of Rule of His House
Will Be Elaborately Observed.

The plans for the celebration of the tercentenary of the accession of the Romanoffs to the imperial throne of Russia are practically complete. The government has introduced a bill into the duma for the appropriation of \$2212,500 to cover the expenses of the ceremony and to assist the authorities of the smaller cities which will entertain the emperor and his family in the course of the year.

The actual anniversary, March 6, will be celebrated at St. Petersburg. The trip to Kostroma, where the imperial crown was tendered to Michael, the first Romanoff emperor of Moscow, where he ascended the throne of Vladimir, and also the voyage to other towns associated with the early history of Russia, have been postponed

until the end of May, when the weather will be more favorable.

These towns, although capitals of Muscovite principalities, are so behind the age that the tour of the emperor will at once involve some actual discomforts and give him an opportunity of coming into close contact with his unprogressive subjects. The monasteries and churches in some instances are so small that it will be necessary to import priests and vessels for the sacred services.

Women Orators.

We can no longer think with Pater that good report for a woman means a minimum of any kind of report about her, whether for good or evil, nor with Dr. Johnson that when she speaks in public she is "like a pig standing on its hind legs." It is not that she does it well, but you are surprised that she can do it at all. We are as proud of our famous women as we are of our famous men, and some of the very best speakers in the world today are women.—University Magazine.

GENERAL HUERTA IS LOOKED UPON AS AN UNUSUAL TYPE

Man Who Overthrew Madero
Was Considered Fine Example of Loyalty.

Is Member of Higher Class,
Wealthy Landholder
and Exporter.

HUERTA SPEAKS TO CROWD.

Huerta, following his overthrow of Madero, made a speech to a great crowd that gathered in front of the national palace. He appeared on a balcony and was wildly cheered.

"The killing of brother by brother is over," he cried. "The people should embrace one another and live in peace. They need peace so that they may develop their land and industries."

He assured his hearers that he had taken the presidency with no desire to serve any personal ends and would hand over the government to the man duly elected. He would be proud to hand to his sons the legacy of a duty performed.

VICTORIANO HUERTA, who recently won the provisional presidency of Mexico by cleverly turning upon Madero and making him prisoner, has always appeared to the American onlookers in the Mexican situation as a rather unusual type of Mexican general. Many an American, sticking close to his investments in that troubled region, has felt a distinct disinclination to talk Mexican politics with the leading natives, because it would be impossible to guess at the real sympathies of the leader addressed. But Huerta throughout the recent uprisings had always been considered a shining example of loyalty to the administration. He was one of the men who stuck to Diaz to the bitter end, not so much because he was devoted to the president, but because he was a federal general, an officer of the government, and so long as Porfirio Diaz was the government just so long Victoriano Huerta fought for Diaz. The moment that Diaz resigned and De la Barra became provisional president of Mexico Huerta began to fight for De la Barra.

When Madero was elected president of the republic Huerta became a fighter for Madero, although he had been one of the stubbornest fighters against him so long as Madero was a rebel. Huerta has always been considered orthodox, and because of his very considerable ability as a general he became Madero's right hand man in military matters.

Madero Relied on Huerta.

That is how it happened that when Madero began to experience the excitement of being rebelled against, instead of doing most of the rebelling himself, it was Huerta who as general was sent out to obliterate his enemies. The chief command, however, was not granted to him until Gonzalez Salas, in charge of the federal forces at first, committed suicide after the defeat of the federals at Corralitos, near Jimenez, in March of last year. After the suicide of Salas, Huerta, who had formerly been in command of the federal forces in Morelos, took charge of the campaign to subdue Orozco and spoke of that rebellious critic of the Madero regime with as much fine scorn as he had once been wont to heap upon the head of Madero himself.

The news that Huerta had decided to succeed Madero could not shock the already jaunted nerves of those who were sensitive because of their heavy investments in Mexico. Americans in the comparatively safe coast towns of Tampico and Vera Cruz have brought back word that at least ten claimants to the presidency were to be found in the field in various disguises of loyalty to Madero and the federal cause. Each of these has done some plotting and entered into secret deals with different foreigners resident in Mexico, making vast promises of federal patronage and concessions in return for a little immediate material assistance. Many a frantic appeal for prompt intervention by the government at Washington has been interpreted as inspired by a fear that some such investment was about to fail dismally.

Huerta Suspected of Early Plot.

So to the canniest of Mexican observers it has seemed highly probable that at any moment some comparatively inconspicuous general would step forward and call himself the successor to Madero. Even Huerta, with all his reputation for sobriety in the midst of revolution, has not been above suspicion, and it was not very long ago that there was an open prediction that he was scheming to unseat his chief.

This prediction was made last September, when an unusually savage outbreak of anti-Maderist sentiment had enveloped the City of Mexico, where the citizens paraded the streets with uproarious "vivas" for the banished Diaz. On that same day, Sept. 14, an American newspaper received an illuminating dispatch from that observation outpost of Mexican affairs, El Paso, Tex.

"Rumor is persistent that Mexico is on the brink of another revolt against the organized government," the dispatch said, "and that this time it will come from within, from the federal army. General Huerta is determined to be the military dictator and even military president of Mexico. He has expressed himself to his followers to this effect. Unless he is taken care of

there will be a new revolution, for in the acknowledged leader in the movement to restore the military power to the control of Mexican affairs."

Huerta Protests Loyalty.

This predicted overturn of the Maderist administration was scheduled for Sept. 16, the Mexican independence day in celebration of the release from the ancient domination of Spain. Quezars were rushed to Huerta as to his attitude in the matter, and his reply was indignantly naughty:

"I am not Orozco," he said, with a fine show of contempt for the man who

had revolted against Madero. "I vouch for the loyalty of the army. We will hold a celebration in Juarez on the national holiday, but it will be merely one of patriotism and nothing more. I am a soldier and nothing more."

The news of Huerta's ascendancy aroused the greatest interest among New Yorkers who have Mexican interests and who have recently returned to this city from the vicinity of the trouble. Edwin M. Macpherson, who is directing large engineering schemes in Mexico, received the news at the Hotel Vanderbilt.

"General Huerta is one of the higher class Mexicans, a man of the De la Barra type," he said. "He is a man of large means, a member of the Mexican gentry. He has large ranch lands and many cattle. He does a very considerable export business to the United States, shipping to the Swift and Armour people. So Americans know him, and know him very favorably. Almost all foreigners who are guarding their investments in Mexico would feel a considerable degree of confidence in General Huerta and would welcome his control of affairs."

Story of His Life.

Victoriano Huerta was born in the state of Chihuahua some fifty-six years ago and as a lad of seventeen went to Mexico City and entered the military school at Chapultepec. Immediately after his graduation from that institution he entered the active service and by successive promotions reached the generalship he held at the time of the Maderist uprising against Diaz. Huerta was called into consultation by the elder Diaz after the capture of Juarez and counseled against resignation. He wanted 3,000 men and, with that force, promised to retake the city, but the opportunity was not granted to him, and, with the resignation of his chief, he was recalled to Mexico City. He headed the escort that attended the exiled Diaz as far as Vera Cruz, and it was Diaz's parting injunction that Huerta should support the administration.

A rumor of a break in the outwardly friendly relations between Madero and Huerta came only a few days ago, when one of Madero's brothers openly criticized Huerta's handling of the federal forces against the rebel Orozco. Men who knew Huerta guessed how furious that would make him and suspected that it caused later events.

TWO YEARS OF REVOLUTION IN MEXICO.

1910, June 26.—Porfirio Diaz re-elected president. Rebellion planned for election day frustrated by proclamation of martial law in border towns.

1910, November.—Insurrection breaks out in northern states. Francisco I. Madero proclaims himself "provisional president."

1911, March 7.—President Taft orders 20,000 United States troops to Mexican border and is reported to have given Mexico until May 1 to restore peaceful conditions.

1911, May 10.—Insurgents recapture Juarez in fight costing many lives and establish provisional government.

1911, May 25.—Diaz resigns presidency and De la Barra is made president pro tem, pending new election.

1911, Oct. 1.—Madero chosen president at general election; inaugurated Nov. 6.

1912, January—December.—Fighting between Madero's troops and various insurgent bands.

1912, Oct. 16.—General Felix Diaz, nephew of president deposed by Madero, seizes arsenal and garrison at Vera Cruz.

1912, Oct. 23.—Madero troops recapture Vera Cruz; Diaz taken prisoner, is court-martialed and sentenced to death, but is saved from execution by Madero.

1913, Feb. 9.—Army revolts in the City of Mexico, releases Diaz and Reyes and captures arsenal under leadership of Diaz.

"Growler" Put Under Ban. The excise board of the District of Columbia recently delivered a hard blow to "growlers." A ban was put on the sale of beer in buckets. Not only is the "growler" trade to be cut out, but all thirst-satisfying parlors must be designated by the proprietor's name.

The Fitting Thing to Say.

New Maid—Please, ma'am, when I bring the dinner in should I say "Dinner's ready," or "Dinner's served?" Mistress—Well, if it's like it was yesterday you'd better say "Dinner is spilt."—London Tit-Bits.

INVENTS DYNAMITE PLANE.

Flies Without Aviator and Drops Bombs.

"I have invented an aeroplane that will fly in a direct line without an aviator and devices by which bombs can be dropped from it at any indicated time after the start," said Harry N. Atwood, Boston aviator, recently. "It will travel 100 miles or more and could drop its bombs over a besieged city or hostile fleet. The aeroplane itself will be built of dynamite and gun cotton, so that when it has discharged its cargo it will fall to the earth and explode, destroying the enemy."

Atwood said his torpedo plane will be ten feet wide and, with cargo, will weigh about thirty pounds. Atwood says Secretary Meyer of the Navy department has approved his plans.

BIG PREPARATIONS FOR INAUGURATION

Indian Band to Lead the Parade March 4.

TAILORS MAKING PINK COATS

All Civic Organizations Invited to Take Part—10,000 Maps of Washington Printed For the Occasion—Big Delegation From South Expected—Colleges to Send Men.

An Indian band and 200 cowboy riders will form a "wild west" section of the Wilson inaugural parade March 4. The westerners are going to Washington in a special train as the representatives of the Democratic central committee of Maricopa county, Ariz., with headquarters in Phoenix. They have informed the inaugural committee that they will take their own bridles and other riding equipment, so that they can present a realistic picture of early frontier days when they appear on Pennsylvania avenue as a part of the escort to President Elect Wilson. This division of the parade will be headed by an Indian band composed of students attending the Indian school at Phoenix.

Washington tailors already are being swamped with orders for pink coats to be worn by members of exclusive hunt clubs, who will have a section of their own in the parade. The hunt club entry list is growing daily and includes the names of prominent social leaders of Washington, Philadelphia, New York, Richmond, Va., and other cities.

Chairman Harper, who is to be grand marshal of the civic division of the parade, is prepared to send out a final call to civic organizations to participate in the inaugural ceremonies. Several political clubs and other societies have had the matter of acceptance under consideration for some time, and it is hoped that the list of organizations which are to take part in the parade can be completed within a week or ten days.

Housing Accommodations Arranged.

The public comfort committee, of which M. I. Weiler is chairman, has arranged housing accommodations for all troops of state militia that have definitely announced that they will participate in the ceremonies. It was stated that the members of the Fifth Maryland infantry will be quartered in the Washington courthouse. Members of the First and Fourth regiments of the Maryland militia will be provided with accommodations in sleeping cars to be stationed in the B. and O. freight yards, according to announcement.

A big representation of Pennsylvania militiamen in the parade is assured. In line will be Company A, engineer battalion, of Scranton; First infantry of Philadelphia; Fourth infantry to which will be added Company K, Eighth infantry, of York, and Company I, Thirteenth infantry of Easton and the Tenth infantry.

10,000 Maps of Washington Printed.

Ten thousand maps of Washington have been printed by the public comfort committee and will be distributed among inaugural visitors. Chairman Gans of the fireworks committee appointed a subcommittee, which will be in charge of the ellipse south of the White House during the mammoth

pyrotechnical display on the evening of March 4.

Big delegations of southern business men are going to Washington for the inaugural ceremonies. Dr. Clarence J. Owen, managing director of the southern commercial congress, has invited the trade organizations of all the principal cities south of Mason and Dixon's line to participate in the parade, and a number have accepted. Atlanta, Ga.; Mobile, Ala., and Houston, Tex., are among the cities that will send commercial delegations. Adolph Boldt of Houston, president of the Southern Association of Commercial Executives, and about 1,000 Houston business men are going in a special train and will take their own band, according to advices received. Colonel Harvey Jordan will head another big delegation that is going from Atlanta. Albert P. Bush of Mobile has informed the inaugural committee that 500 business men of that city will be among the southern representatives in the parade.

Colleges to Send Delegations.

One day's mail brought encouraging reports to the intercollegiate committee of the inauguration, which has invited the principal colleges and universities of the United States to send delegations of students to Washington to participate in the inaugural ceremonies. The Kentucky State university of Lexington will send 300 cadets. The medical college of Johns Hopkins university of Baltimore and Columbia university of New York are considering accepting the committee's invitation, as are also the University of Virginia and Yale university. Washington college of Chestertown, Md., and Stevens Institute of Technology of Hoboken, N. J., have definitely decided to be represented. Nearly all of the colleges invited have replied to the committee, expressing enthusiasm over the plan to have the country's educational institutions represented in the parade.

WHAT INTERVENTION MEANS.

Five years of guerrilla warfare extending into the mountain fastnesses of Mexico with an American army of upward of 250,000 necessary is what intervention in Mexico means to the United States, according to the statement of Frederick L. Hudekoper, the military expert.

"The hatred of the Latins for the Anglo-Saxon is intense in Mexico," he said, "and intervention in any form by this country means the welding of all antagonistic forces against one common enemy. The United States takes on her shoulders an enormous task, that of subduing a country where the lines of communication exist only in the settled parts. Three distinct campaigns would have to be waged in north, south and central Mexico to conquer the land. Central Mexico would be the only part of the country in which decisive campaigns could be fought. The others would be a series of long drawn out skirmishes—guerrilla warfare in its worst phase."

"The lines of communication are all remote," he said, "and when one point is conquered it will be necessary to maintain a defensive force. This would require an enormous number of men. In order to obtain such an army the militia of course would have to be drafted into service."

Static Electricity.

The kind of electricity formed in a thundercloud is not like that which is produced by electrical machinery. Lightning is static electricity, the same kind as is produced by rubbing amber with silk.

Buy direct from the makers. Double farm harness \$18.65 and up. Single harness \$10.00 and up. Price of leather is 15% higher than last year—the our prices are the same—order from your last year's catalogue—if you have not catalogue we will mail you one.

CZAR TO CELEBRATE BIRTH OF THE ROMANOFF DYNASTY

Tercentenary of Rule of His House Will Be Elaborately Observed.

The plans for the celebration of the tercentenary of the accession of the Romanoffs to the imperial throne of Russia are practically complete. The government has introduced a bill into the duma for the appropriation of \$2212,500 to cover the expenses of the ceremony and to assist the authorities of the smaller cities which will entertain the emperor and his family in the course of the year.

The actual anniversary, March 6, will be celebrated at St. Petersburg. The trip to Kostroma, where the imperial crown was tendered to Michael, the first Romanoff emperor of Moscow, where he ascended the throne of Vladimir, and also the voyage to other towns associated with the early history of Russia, have been postponed until the end of May, when the weather will be more favorable.

These towns, although capitals of Muscovite principalities, are so behind the age that the tour of the emperor will at once involve some actual discomforts and give him an opportunity of coming into close contact with his unprogressive subjects. The monasteries and churches in some instances are so small that it will be necessary to import priests and vessels for the sacred services.

Women Orators.

We can no longer think with Pericles that good report for a woman means a minimum of any kind of report about her, whether for good or evil, nor with Dr. Johnson that when she speaks in public she is "like a pig standing on its hind legs." It is not that she does it well, but you are surprised that she can do it at all. We are as proud of our famous women as we are of our famous men, and some of the very best speakers in the world today are women.—University Magazine.

GENERAL HUERTA IS LOOKED UPON AS AN UNUSUAL TYPE

Man Who Overthrew Madero Is Member of Higher Class, Was Considered Fine Example of Loyalty.

add revolted against Madero. "I vouch for the loyalty of the army. We will hold a celebration in Juarez on the national holiday, but it will be merely one of patriotism and nothing more. I am a soldier and nothing more."

The news of Huerta's ascendancy aroused the greatest interest among New Yorkers who have Mexican interests and who have recently returned to this city from the vicinity of the trouble. Edwin M. Macpherson, who is directing large engineering schemes in Mexico, received the news at the Hotel Vanderbilt.

"General Huerta is one of the higher class Mexicans, a man of the De la Barra type," he said. "He is a man of large means, a member of the Mexican gentry. He has large ranch lands and many cattle. He does a very considerable export business to the United States, shipping to the Swift and Armour people. So Americans know him, and know him very favorably. Almost all foreigners who are guarding their investments in Mexico would feel a considerable degree of confidence in General Huerta and would welcome his control of affairs."

Story of His Life.

Victoriano Huerta was born in the state of Chihuahua some fifty-six years ago and as a lad of seventeen went to Mexico City and entered the military school at Chapultepec. Immediately after his graduation from that institution he entered the active service and by successive promotions reached the generalship he held at the time of the Maderist uprising against Diaz. Huerta was called into consultation by the elder Diaz after the capture of Juarez and counseled against resignation. He wanted 3,000 men and, with that force, promised to retake the city, but the opportunity was not granted to him, and, with the resignation of his chief, he was recalled to Mexico City. He headed the escort that attended the exiled Diaz as far as Vera Cruz, and it was Diaz's parting injunction that Huerta should support the administration.

A rumor of a break in the outwardly friendly relations between Madero and Huerta came only a few days ago, when one of Madero's brothers openly criticized Huerta's handling of the federal forces against the rebel Orozco. Men who knew Huerta guessed how furious that would make him and suspected that it caused later events.

TWO YEARS OF REVOLUTION IN MEXICO.

1910. June 23.—Porfirio Diaz re-elected president. Rebellion planned for election day frustrated by proclamation of martial law in border towns.

1910. November.—Insurrection breaks out in northern states. Francisco I. Madero proclaims himself "provisional president."

1911. March 7.—President Taft orders 20,000 United States troops to Mexican border and is reported to have given Mexico until May 1 to restore peaceful conditions.

1911. May 10.—Insurgents recapture Juarez in fight costing many lives and establish provisional government.

1911. May 25.—Diaz resigns presidency and De la Barra is made president pro tem. pending new election.

1911. Oct. 1.—Madero chosen president at general election; inaugurated Nov. 6.

1912. January.—December.—Fighting between Madero's troops and various insurgent bands.

1912. Oct. 16.—General Felix Diaz, nephew of president deposed by Madero, seizes arsenal and garrison at Vera Cruz.

1912. Oct. 23.—Madero troops recapture Vera Cruz; Diaz taken prisoner, is court martialled and sentenced to death, but is saved from execution by Madero.

1913. Feb. 9.—Army revolts in the City of Mexico, releases Diaz and Reyes and captures arsenal under leadership of Diaz.

"Growler" Put Under Ban.

The excise board of the District of Columbia recently delivered a hard blow to "growlers." A ban was put on the sale of beer in buckets. Not only is the "growler" trade to be cut out, but all thirst satisfying parlors must be designated by the proprietor's name.

The Fitting Thing to Say.

New Maid—Please, ma'am, when I bring the dinner in should I say "Dinner's ready," or "Dinner's served?"

Mistress—Well, if it's like it was yesterday you'd better say "Dinner is spilt."—London Tit-Bits.

INVENTS DYNAMITE PLANE.

Flies Without Aviator and Drops Bombs.

"I have invented an aeroplane that will fly in a direct line without an aviator and devices by which bombs can be dropped from it at any indicated time after the start," said Harry N. Atwood, Boston aviator, recently. "It will travel 100 miles or more and could drop its bombs over a besieged city or hostile fleet. The aeroplane itself will be built of dynamite and gun cotton, so that when it has discharged its cargo it will fall to the earth and explode, destroying the enemy."

Atwood said his torpedo plane will be ten feet wide and, with cargo, will weigh about thirty pounds. Atwood says Secretary Meyer of the Navy department has approved his plans.

BIG PREPARATIONS FOR INAUGURATION

Indian Band to Lead the Parade March 4.

TAILORS MAKING PINK COATS

All Civic Organizations Invited to Take Part—10,000 Maps of Washington Printed For the Occasion—Big Delegation From South Expected—Colleges to Send Men.

An Indian band and 200 cowboy riders will form a "wild west" section of the Wilson Inaugural parade March 4. The westerners are going to Washington in a special train as the representatives of the Democratic central committee of Maricopa county, Ariz., with headquarters in Phoenix. They have informed the inaugural committee that they will take their own bridges and other riding equipment, so that they can present a realistic picture of early frontier days when they appear on Pennsylvania avenue as a part of the escort to President Elect Wilson. This division of the parade will be headed by an Indian band composed of students attending the Indian school at Phoenix.

Washington tailors already are being swamped with orders for pink coats to be worn by members of exclusive hunt clubs, who will have a section of their own in the parade. The hunt club entry list is growing daily and includes the names of prominent social leaders of Washington, Philadelphia, New York, Richmond, Va., and other cities.

Chairman Harper, who is to be grand marshal of the civic division of the parade, is prepared to send out a final call to civic organizations to participate in the inaugural ceremonies. Several political clubs and other societies have had the matter of acceptance under consideration for some time, and it is hoped that the list of organizations which are to take part in the parade can be completed within a week or ten days.

Housing Accommodations Arranged.

The public comfort committee, of which M. I. Weller is chairman, has arranged housing accommodations for all troops of state militia that have definitely announced that they will participate in the ceremonies. It was stated that the members of the Fifth Maryland Infantry will be quartered in the Washington courthouse. Members of the First and Fourth regiments of the Maryland militia will be provided with accommodations in sleeping cars to be stationed in the B. and O. freight yards.

Four hundred men, composing the First Infantry and Battery B, First field artillery, Minnesota national guard, will participate in the parade, according to announcement.

A big representation of Pennsylvania militiamen in the parade is assured. In line will be Company A, engineer battalion, of Scranton; First Infantry of Philadelphia; Fourth Infantry, to which will be added Company K, Eighth Infantry, of York, and Company I, Thirtieth Infantry of Easton and the Tenth Infantry.

10,000 Maps of Washington Printed.

Ten thousand maps of Washington have been printed by the public comfort committee and will be distributed among inaugural visitors. Chairman Gans of the fireworks committee appointed a subcommittee, which will be in charge of the ellipse south of the White House during the inauguration.
